Sincerely,

Robert E. Clark

My Commission Expires: ______________
A wide variety of functions are performed by City Boards and Commissions. The City Council is elected by the people to be in overall charge of the government of the City. Boards and Commissions are appointed to serve in a particular area of City government. These bodies are referred to as "citizen" Boards and Commissions since they are not elected and the people who serve on them are volunteers.

The Boards and Commissions of the City deal with a wide variety of subject areas that extend from Airport to Zoning. The roles of the Boards and Commissions are varied but each Board and Commission has a definite role prescribed for it by the City Charter, City Code of Ordinances, Council Resolution or some other legislative measure. The authority of City Council is limited by the City Charter; likewise, the authority of the various Boards and Commissions is limited by law. Each body has an area and a way in which it is appropriate to act. Each Board and Commission has a responsibility to act in its own sphere of responsibility. The actions of each citizen Board and Commission are important to the proper functioning of City government and, in some cases, have a substantial impact on individual citizens.

There are several general "types" of citizen Board and Commissions. These "types" are determined by the role that the Board or Commission has. As different parts of the federal and state government are divided under the separation of powers doctrine into separate branches that have different roles, so too are Board and Commissions given defined roles. Some Boards and Commissions can only lawfully act how and in the area in which it is authorized to act.

In the following pages are the names and definitions of the types of Board and Commissions of the City of Monroe. Many bodies have the same type of role - advisory - but exercise it in different areas, like the airport and parks and recreation. The Boards and Commissions are grouped according to the function that they perform and not the area in which they act. Several of the bodies have more than one function. Others - mostly those created by state law - don't fall within traditional areas of function. These are called "special purpose" Boards and Commissions. Descriptions of each of the various Boards and Commissions, general to the specific, are included.

Each Board and Commission member is asked to review the role of his or her Board or Commission and the area in which it acts.
THE AUTHORITY OF BOARDS AND COMMISSIONS
HOW THEY ACT AND HOW THEY INTERACT WITH THE CITY ADMINISTRATION

Board or Commission Actions, Committees and Delegation of Authority

It is important to remember that Citizen Boards and Commissions are collective bodies and that they can act in an official capacity only when gathered at regular formal meetings. The full Board or Commission should work together as a body whenever it wishes to take official action regarding a matter. In appropriate circumstances, a committee of the Board or Commission can be delegated a task. The most common use of committees is to study particular issues. The appropriate role for a committee will be determined, to a considerable extent, by the function of the Board or Commission. It is important to keep in mind that a committee’s primary duty is to report back to the full Board or Commission. The committee does not act instead of the Board or Commission. It acts as an assisting or auxiliary body to the full Board or Commission to which it reports. A committee cannot be given or delegated the full authority of the Board or Commission.

City Administration Interaction and Assistance

If a Board or Commission desires assistance from a City department(s) for its work, the Board or Commission should, acting as a body, make the request to the appropriate staff person(s). If the full Board or Commission has delegated a task to a committee or to an individual, that committee or individual can and should seek appropriate staff assistance. Individual members of the Board or Commission should not expect staff to provide significant services or support to them. Reasonable requests for information, guidance or other routine matters are appropriate. Where applicable, the liaison person to the Board or Commission should be relied upon to co-ordinate assistance and support between the City Administration, its departments and Boards and Commissions.

THE CITY ADMINISTRATION

The Charter of the City of Monroe requires the City Council to appoint a City Manager to direct the day-to-day administration of the City. The City Manager is the person who is in direct charge of most of the department heads and employees. The City Attorney and City Finance Director are under the direction of the City Council. The Clerk/Treasurer is under the special supervision of the Mayor.
THE CITY MANAGER’S ROLE

The City Manager, is therefore, the person who directs and controls the work of the City staff; including providing assistance and support for citizen Board and Commissions. This is usually done through Department Directors and other supervisors. Citizen Boards and Commissions cannot legally direct the work or activities of City staff.

CITY STAFF ASSISTANCE

City staff will attempt to respond to all reasonable requests for support services made by a Board or Commission as outlined in this handbook. Since the Boards and Commissions are a part of the City and are assisting the rest of City government in providing the best possible service to our residents, every reasonable effort will be made to provide the resources necessary for the Boards and Commissions to properly perform their functions. Whether the level of support requested by the Board or Commission can be provided with the resources available; however, will have to be a decision made by the appropriate City administrator. If a Board or Commission believes that the level of staff support is not adequate or some other problem or issue is not being resolved, it should contact the City Manager who will address the concern of the Board or Commission at the earliest possible time.
MULTIPLE ROLES

GENERAL DESCRIPTION OF DUTIES

Boards and Commissions with Multiple Roles are required to fulfill more than a single function. The general duties of the body include two or more types of functions. More detailed descriptions of the specific roles indicated in parentheses for each of the Multiple Role Boards and Commissions can be found in the descriptions of the functions of the single role Boards and Commissions found on the following pages.

Civil Service Board
(Administrative/quasi-judicial/quasi-legislative)

This Board is established by the Charter to set rules and regulations for administration of the classified service (police, fire and certain other City employees). The Board is administrative in that it oversees the operation of the Civil Service system. It is quasi-legislative in that it establishes a code of rules and regulations for the System. It is quasi-judicial in that it conducts hearings and makes decisions on contested matters within its purview. Many of the Board’s functions have been superseded as a result of collective bargaining.

Historic District Commission
(Advisory/quasi-judicial)

This Commission advises the City Council on historic preservation issues including the establishment of historic districts and landmarks. The Commission also conducts hearings in a quasi-judicial capacity to decide issues relating to the enforcement of the Historic District Ordinance and to permit, within standards established by the ordinance, exceptions to strict compliance with the terms of the ordinance in recognized historic districts and as applied to designated landmarks.

Employees Retirement System Board
(Administrative/operational/quasi-judicial/quasi-legislative)

The Boards’ duties are multi-faceted. They are administrative in managing the investment of the pension systems assets and other matters relating to general administration of the System including the employment of appropriate professional services. There are also several quasi-legislative duties including the approval of expenditures from System funds. The Board has quasi-judicial duties in determining eligibility for pensions in certain cases. The operational duties are non-delegable fiduciary duties under the establishing ordinance.
Citizen Planning Commission  
(Advisory/quasi-legislative/quasi-judicial/administrative)

This body is required by state law and most of its duties are prescribed by state law. One major duty is development of a Master Plan for the City of Monroe. This is a quasi-legislative function as are several types of approvals (plats, streets, etc.) that the Planning Commission must give before construction may commence. An important additional advisory duty is to consider and recommend changes to the zoning ordinance. The Commission has the responsibility of approving public improvements in planned areas. The Commission must consider several kinds of "permitted with approval" uses when acting in a quasi-judicial capacity.

Library Advisory Commission  
(Advisory/quasi-legislative/quasi-judicial)

This body is established by City Ordinance to serve several functions. The Commission act as an advisory body to the Mayor and City Council on library programs, and as an advisory body to the Monroe County Library system on levels of service to the City. It has the quasi-legislative authority to establish and enforce rules for conduct of people utilizing the library. The Commission serves a quasi-judicial function as an appeal board for any action that is taken as a result of disciplinary rulings out of the library use programs.

Commission on the Environment and Water Quality (COTE) (Advisory)

The Commission provides advice and makes recommendations to the City Council and City Manager in regard to stewardship of the land and water resources within or contiguous to the City of Monroe. Created under Ordinance 06-002

Ethics Committee (Quasi-Judicial/Advisory)

The Board of Ethics administers and enforces the ordinances governing the standards of conduct.

River Raisin Heritage Corridor Advisory Commission (Advisory – Single-purpose)

The Commission was established to provide recommendations and reports to the City Council and Citizen Planning Commission regarding the implementation, prioritization, phasing, modification and development of the River Raisin Heritage Corridor Master Plan. Created under Ordinance 19-002
Telegraph Road Corridor Improvement Authority (Quasi-Legislative / Advisory)

Established by City Council in 2020 under the authority of Public Act 57 of 2018, the Telegraph Road Corridor Improvement Authority exists to plan for and implement development and other investment to improve the accessibility, safety and character for business, residents, patrons and other users of the Telegraph Road commercial corridor.
ADMINISTRATIVE

GENERAL DESCRIPTION OF DUTIES

An administrative Board or Commission has the responsibility for supervising or managing a department, function or operation. The Board or Commission is granted authority by Charter, Code of Ordinances, resolution or state law to manage or be in charge of some operation or some aspect of an operation of City government. The administrative role is generally fulfilled by setting policy and by overseeing the work of a regular City employee who either does the work or supervises it.

There are no Boards or Commissions that are exclusively administrative. Several Boards and Commissions have administrative duties in addition to others. These are:

- Civil Service Board
- Employees Retirement System Board
- Citizens Planning Commission
- Community and Economic Development Revolving Loan Fund Board
ADVISORY

GENERAL DESCRIPTION OF DUTIES

An advisory board or commission is responsible for offering suggestions and making recommendations to the City Council about a particular area of concern or interest as set out in the City Ordinance or other measure establishing the body. This type of body is expected to provide its advice and guidance in the area of policy or operations as determined by the City Council but is not expected to establish policy or to decide contested cases. The actions of an advisory body are not generally of a binding nature and the major function of such a body is to provide advice and counsel to the City Council.

There are several bodies that are single-purpose advisory bodies that have the sole duty of advising the City Council in a particular area. These are:

- Recreation Advisory Commission
- Monroe Traffic Committee
- Economic Development Review Committee
- Commission on the Environment and Water Quality (COTE)
- River Raisin Heritage Corridor Advisory Commission

Other boards and commissions have advisory duties in addition to other responsibilities. These bodies are:

- Citizens Planning Commission
- Historic District Commission
- Library Advisory Commission
QUASI-JUDICIAL

GENERAL DESCRIPTION OF DUTIES

Quasi-judicial boards and commissions are bodies that perform their duties like judges (as used here “quasi” means like or resembling). That means that they decide individual cases or controversies according to a legislatively established set of laws or other standards, without being a part of the judicial branch of government. This role generally involves hearing appeals from actions of city officers or employees, determining what the facts are and applying a set of laws or other legislatively-established standards to these facts. Like a regular judge, a quasi-judicial body has a duty to decide specific cases based upon legislatively-established standards and not to establish the standards or to perform the initial investigation (although on-site visits or inspections are permitted as part of the appeal process). These bodies have a responsibility to remain neutral and not to become an advocate or supporter of one side or the other incases or on issues that come before them.

There are several bodies that are single-purpose quasi-judicial bodies that have the sole duty of hearing and deciding contested matters in a particular area. These are:

- Board of Review
- Construction Board of Appeals
- Historic District Commission
- Zoning Board of Appeals

Other boards and commissions have quasi-judicial duties in addition to other responsibilities. These bodies are:

- Civil Service Board
- Citizen Planning Commission
- Employees Retirement System Board
- Library Advisory Commission
- Ethics Committee
QUASI-LEGISLATIVE

GENERAL DESCRIPTION OF DUTIES

Quasi-legislative Boards and Commissions are those bodies with duties that involve setting policy and which have broad discretion in doing so (as used here "quasi" means like or resembling). Like legislative bodies, these Boards and Commissions choose what they believe is the wisest policy or course of action within their area of responsibility. They are generally bodies mandated by Charter or state law with authority that flows directly from the law or Charter. These are often bodies that perform a "checks and balances" function by virtue of their independence from the electoral/political process.
