Creating Community through People, Parks, Partnerships & Programs

How the Trails Challenge Works:

Hit the Trails!

Welcome to the City of San Ramon Trails Challenge, an invitation to explore the trails and do something good for your body and mind! The Trails Challenge encourages you to hike the trails featured in this guidebook anytime from April through September.

The Trails Challenge is an opportunity to get comfortable on the trails and discover the health benefits of outdoor recreation. If you're already a hiker, the Trails Challenge is a great way to keep active and learn a little more about the local trails located in the City of San Ramon.

The Trails Challenge is free, designed for all fitness levels, and is a self-guided program to complete on your own schedule. You can hike on your own, with your dog, with family, with friends and with co-workers.

When you register for the Challenge you will receive a **FREE Trails Challenge T-Shirt** (while supplies last). Trails Challenge T-Shirts will be available for pick-up at Sports Basement (1041 Market Pl. San Ramon, CA 94583). Participants will be notified when those T-Shirts are available for pickup.

Upon completion of 5 of the 7 challenge trails, submit your Trails Completion Log online at www.SanRamon.ca.gov/SRTrails - select *Trails Challenge* and then *Trails Challenge Completion Log*. Once your completion log is submitted, your name will be posted on the Trails Challenge website to recognize your accomplishment.

All participants and their guests are invited to attend a post challenge wrap-up event hosted by Sports Basement on October 1st, 2022 from 11:30am-12:30pm at Sports Basement (1041 Market Pl, San Ramon, CA 94583). Come celebrate your participation and share stories of your time out on the trail in an outdoor, socially distanced, setting! Please check the Trails Challenge website for additional information on this event as local health orders continue to adjust.

The City of San Ramon includes more than 50 parks and trails with more than 140 miles of trails. The routes in this guide are our recommendations for seeing the diversity of the City of San Ramon landscapes and for experiencing hikes of varying intensity.

How to Complete the Challenge

1. Register online at www.SanRamonRecGuide.com – activity number 13327.
2. Visit the Trails Challenge website at www.SanRamon.ca.gov/SRTrails to view a current list of trails and download the OuterSpatial mobile app.
3. Use the OuterSpatial mobile app for directions to the trail head, points of interest and directions once out on the trail.
4. Complete five out of the seven featured trails before September 30 and submit your *Trails Challenge Completion Log* online at www.SanRamon.ca.gov/SRTrails > Trails Challenge > Trails Challenge Completion Log.

Overview

San Ramon

Distance 0.0 miles

Hiking for Health

A growing public health concern is the lack of regular physical activity. Experts agree that adopting a walking routine is one of the simplest, most effective changes we can make to improve our health. According to the American Heart Association, walking at least 30 minutes a day can help reduce or maintain body weight, lessen the risks for diabetes, heart disease, osteoporosis and certain cancers, improve moods and feelings of well-being, and promote healthy sleep patterns.

Is hiking the same thing as walking? Yes, a hike is just a walk that takes place in a natural setting with the goal of exploring and enjoying the scenery! The San Ramon parks and trails provide safe, convenient, free - and beautiful - places to hike. Trails are available for all fitness levels throughout San Ramon.

In addition to the fundamental health advantages associated with walking, numerous studies indicate outdoor recreation can benefit us in additional ways. For example, research finds that people who exercise in nature are more likely to be satisfied with their workout and more likely to repeat it. Starting a fitness routine literally can be as enjoyable as a walk in the park!

Hiking for Parks

Becoming a regular trail user is not only good for you; it's good for your parks. When you hike the trails, you build an appreciation for the parks and the crucial role they play in healthy communities. Parks help keep our air and water clean. They provide a buffer from development and critical habitat for plants and wildlife. When you use the trails and experience the relationship between natural settings and personal and public health, you are more likely to become a steward and champion of the parks.

Hiking with Dogs

Dogs love hiking just as much as their people and well-behaved dogs on leash are allowed.

- Dogs must be on a leash.
- The leash law exists to keep trail users and dogs safe. No one likes to encounter an unfamiliar dog bounding toward them, and dogs running off leash may encounter unsafe wildlife.
- Bring water and a portable bowl for your dog and carry pet waste bags.

Hiking with Kids

Hikes are a great family activity. Children love exploring trails and feel a sense of accomplishment after a hike. For parents with infants and toddlers, the parks feature many stroller-friendly trails.

- Like any outing with children, a hike takes advance planning. Know the length of your route and whether it's suitable for your child's abilities. Start with short hikes and work up to longer outings.
- Be willing to adjust your pace to suit your child. Kids like to take lots of breaks to examine things. Take advantage of these teachable moments to talk about what you're seeing and make simple observations.
- Pack snacks, drinks, sunscreen, and appropriate clothing for the destination.

Healthy Trail Tips

- Wear the right shoes. Hiking boots aren't necessary, but a comfortable pair of athletic shoes is recommended - as are sunglasses and a hat.
- Due to San Ramon's many microclimates, dressing in layers is best. A walk that starts in cloudy, chilly weather may end under clear skies and temperatures in the 90's.
- Bring a full water bottle and drink before, during and after your hike.
- In the warm seasons, avoid hiking mid-day when temperatures are high.
- Wear sunscreen even on overcast days.
- Start out slowly and give your muscles time to warm up. Know your limits. Don't overexert.

Trail Etiquette

- Walk on the right side of the trail and be mindful of bikers and equestrians.
- Bikers yield to hikers. Bikers and hikers yield to horseback riders.
- Please don't pick flowers and plants or disturb creeks.
- Please respect others' enjoyment of the beauty and quiet of the parks.
- If you do not see trash cans along the trail, pack out your trash to the parking lot.
- Please pick up after your dog.

Poison Oak

Poison oak is abundant in some locations and contact with the plant can cause an irritating skin rash. Fortunately, poison oak is easy to identify due to its smooth, shiny leaves that grow in threes. ("Leaves of three, leave them be.") If you come into contact with poison oak, wash your hands with soap and water and wash your clothes when you get home. Calamine lotion can relieve itching if a rash develops.

Wildlife

The wild animals most often seen from the trails are cattle, deer, turkeys, hawks, eagles, and many other bird species. You might spot animals like foxes, raccoons, coyotes, or non-venomous snakes such as garter and gopher snakes. You may rarely encounter rattlesnakes, or mountain lions.

- Be aware of the trail ahead of you and don't intentionally approach animals. If you encounter a snake, move away from it, and it likely will move away too. Don't put your hands and feet where you can't see.
- On the rare chance you see a mountain lion, make yourself appear larger by raising your arms and making noise. If hiking with a small child or small dog, pick them up. Don't run or crouch. Report sightings to the San Ramon Police Department.

Trail Levels

Easy - Easy trails are generally under 2 miles and relatively flat, with room to walk side by side with a companion. Good for people starting a fitness routine, families with children, or anyone interested in an easy-paced outing.

Moderate - Moderate-intensity trails are generally 2 to 5 miles long with uneven surfaces, varied terrain and elevation gains. You will notice some physical exertion on these trails. Many moderate-level hikes can be created by combining shorter trail loops within a park.

Strenuous – Strenuous trails are generally 4 miles or longer or feature steep climbs and/or rugged terrain. These trails are recommended for experienced hikers in good physical condition. Please prepare accordingly and bring plenty of water.

Featured Trails at a Glance

Easy Trails-

Iron Horse to Lake Annabel Loop Trail 2.2 miles

Rancho San Ramon to Village Center Loop Trail 3.1 miles

Frequently Asked Questions

Q. What is the OuterSpatial mobile app?

A. OuterSpatial is a free app that allows users to locate and view trailheads, park maps, and points of interest in San Ramon, Northern California, and beyond. Maps are downloadable for offline access without cellular data. Download it at www.OuterSpatial.com

Q. Should I submit my Trails Log as soon as I'm done with the Trails Challenge or should I wait until the Trails Challenge officially ends September 30th?

A. You can submit your Trails Log any time before September 30th. However, we encourage you to turn it in as soon as you complete your hikes to have your name posted on the website to recognize your accomplishment. Plus, we appreciate the feedback we receive in the trails logs as the Challenge progresses.

Q. I'd like to take the Trails Challenge with my kids. Is there a minimum age requirement?

A. The Trails Challenge is open to all ages, and we encourage families to participate. Hiking is a great way to spend time together, and the Trails Challenge features easy hikes as well as challenging trails appropriate for kids.

Q. How will you know if I really hiked the trails I list in my trails log?

A. Well, we won't know for sure, but we will take your word for it. The Trails Challenge operates on an honor system. If you want to prove it to us, simply take pictures of your hikes along the way and post them on Instagram or Twitter and tag #srtrails.
