

# PETITION

## *Neighborhood Traffic Safety Program*

We, the undersigned residents of \_\_\_\_\_ (street name), are concerned about excessive speeding on our street. **We request that the City of Knoxville conduct a Neighborhood Traffic Safety Study** to determine if the speeding is severe enough to justify possible traffic calming measures in our neighborhood.

We understand that:

- The City of Knoxville will conduct a Neighborhood Traffic Safety Study once the simple majority (50% +1) of households have signed a petition.
- **The City may install traffic calming if the evidence shows such measures are the only effective means for reducing speeding that endangers public safety.**
- “Traffic calming measures” may include physical devices such as speed humps.
- The City would not take these steps without public neighborhood meetings and opportunities for neighbor input on the traffic calming plan for our neighborhood.
