The City contracts with the Public Employees’ Retirement System (PERS) to provide retirement benefits to its employees. The City’s PERS costs are projected to increase compared to current costs, but the City has actively planned prepayment which will decrease these future costs. The savings to the City from interest costs are likely to be similar to the amount of the prepayments over time.

**TWO TYPES OF PAYMENTS TO PERS**

- **NORMAL COST** - percent of payroll that funds the benefit earned in the current year
- **FIXED ANNUAL PAYMENTS** - payment applied to any unfunded liability

**Unfunded Liability All City Plans (June 2020) $21.3M**

**City overall funded status (June 2020) 87%**

**PERS overall funded status (June 2020) 71%**

**Fixed Fiscal Year (FY) 2022 Unfunded Liability Payment $1,616,861**

PERS projects the City’s Annual Payment to continue to increase through FY 2024 to be $1,983,100 and then decrease to $1,707,400 in FY 2025.

City has issued Accelerated Prepayments to the Unfunded Liability of over $10 million since FY 2016.

**FUTURE UNFUNDED LIABILITY ACCELERATED PREPAYMENT FUNDING PLAN**

- Five Year Forecast proposed Annual Accelerated Payments in FY 2022 through FY 2026 of $900,000 to $1,300,000
- Reinvest Early Payment Discount (3.5%) each Fiscal Year towards the Unfunded Liability
- Recognize Salary & Benefit savings at Mid-Year Budget Review as an additional opportunity to provide Accelerated Prepayments to the Unfunded Liability

**CITY DOES NOT PARTICIPATE IN SOCIAL SECURITY EQUALS SAVINGS OF 6.2%**

**PERCENTAGE OF CITY EMPLOYEES IN MOST COSTLY TIER 1 PLANS (highest Normal Cost)**

Since both the City and State implemented Pension Reform, the City has realized a decrease in the number of employees enrolled in the more expensive Tier 1 plan.

**Liability—When investment earnings are less than PERS expected a liability is created. If there is no unfunded liability the funded status would be 100%.**
