Executive Summary

This document will serve as the City of Grand Terrace's 2014-2020 Strategic Plan, the first significant component of its 2030 Vision. Its purpose is to help the City prioritize its efforts, allocating both fiscal and human resources to achieve a shared Vision and Goals. The Plan is the result of a comprehensive review by Flint Strategies of the City's current operations and finances; interviews with staff members and contractors; and, discussions with City Councilmembers. The results of that analysis were presented for discussion by Council and staff at a two-day Study Session that was held April 11th and 12th, 2014.

The study session resulted in the identification of the City’s Mission, Vision, Core Values and the following Goals:

The plan also includes a Governance section, which reflects the City Council’s commitment to complete transparency in conducting the City’s business and ensures a timely, thoughtful response to community requests and inquiries.
Development of the Plan

Council Study Session

The Grand Terrace City Council and staff attended a two-day Study Session to discuss the current state of the City’s strengths, weaknesses, opportunities and threats. The purpose of the session was to identify areas of concern and appropriate priorities for the City moving forward. Discussion revolved around the following topics:

- What should the City’s main services include now and in the future?
- How can the City address fiscal challenges?
- What types of development does Grand Terrace need to remain viable?
- How can the City retain critical staff and create a productive and positive work environment for employees and contractors?

Members of the public were also given an opportunity to comment at both sessions.

Benchmarks

Over the next five years, staff will include progress reports on the implementation of the Plan citing specific examples of fulfillment. This may include:

- Reducing dependence on reserve funds;
- Decrease in crime/response time for emergency services;
- New businesses, progress in the Downtown area;
- Development of new programs and/or amenities managed by private agencies via partnerships with the City; and
- Demonstrated improvement in communications with the public.

It is recommended that the City Council review the 2014-2020 Strategic Plan bi-annually to gauge progress towards achieving its goals.

Governance

Open, effective governance is required to implement this Plan. The City Council has agreed to a policy of governance that includes the following:

- This Plan is based on a long-term commitment by the City Council and Staff to focus on implementation. The role of the Mayor will be ceremonial, presiding over City Council meetings, representing the City at community events and serving as the main spokesperson for the City during his or her term.
• Council requests for research or other staff work must be directed to the City Manager, or the City Attorney regarding legal matters or the City Clerk regarding matters within the Clerk's authority.

• If more than one hour of staff time will be required to complete the task/project, the item will be agendized to ask the City Council if time should be spent on preparing a report on the proposed item.

• Staff responses prepared to Council inquiries shall be distributed to all City Councilmembers.

• A Councilmember shall not direct staff to initiate any action, change a course of action, or prepare any report.

• When preparing for Council meetings, Councilmembers should direct questions ahead of time to the City Manager so staff can provide the desired information at the Council meeting.

• Any concerns by a member of the City Council regarding the behavior or work of a City employee should be directed to the City Manager privately to ensure the concern is resolved. Councilmembers shall not reprimand employees directly nor should they communicate their concerns to anyone other than the City Manager.

• The Council values the opinions and input from the community and welcomes public discourse. To ensure accurate information and/or resolution to all inquiries, Council will not respond to public comments and/or requests on non-agendized items. Each matter will be addressed individually either via staff to the individual or group or via Council at a future Council meeting as an agendized item. This is to allow both Council and staff to gather all relevant information and provide a thoughtful response to requests and comments.
Conclusion

The 2014-2020 Strategic Plan does not include all of the Goals, and suggested programs, projects and initiatives suggested by the public, staff or Council over the course of its development. The Goals included represent the highest priorities for the community and Council. Should other sources of revenue be identified, the City may revisit this Plan and adapt it as needed. For now, by limiting the City’s efforts to these key areas, Grand Terrace will be better positioned to achieving its long-term vision and maintaining its fiscal viability.
