

## WHAT ARE SOME WAYS THAT CAN MAKE LIFE BETTER FOR ANIMALS IN YOUR COMMUNITY

Have you ever thought that many animals in your community need help and better places to live? Did you know that animals are a really good thing to have in your community? Well, animals and humans are similar on many things. Both humans and animals look for a peaceful and safe place to live. They want to have a family away from predators and people that can hurt them. Many wild animals die each day because of cutting down trees, littering, and people hurting them. We can help animals by cutting down less trees, that way their home is safe and they don't have to move all the time and find a new place to live. Animals work hard to find or build their home. How will people feel if animals destroyed their homes or property?

Littering is a bad thing to do you may have seen animals chewing or swallowing trash, birds get tangled on trash and are unable to fly. Animals chew on things that may have bacteria or diseases and get sick, they might swallow something and choke to death. Nobody wants to see a dead animal on the street, but there is little done to prevent this from happening. People can clean up trash, stop littering, and stop cutting down so many trees so that animals have happy and healthy life.

There are people who hurt wild animals and some even hurt pets, they must stop hurting animals! Animals are living creatures, they think and feel just like us humans. We should protect and take care of them before its too late. If you see a lost pet, you should see if they have a collar and call the owner or call the animal shelter to come and take them to a safe place. People have to understand that we are not the only ones living in this earth. We have to share with animals and we have to treat them with respect so that they feel they are welcomed and they don't cause any problems in your community. When animals feel they are in danger they could attack someone so the best thing to do is to leave them alone. To make life easier and better for animals and ourselves we have stop littering, destroying their homes, stop hurting and killing them for no reason. This is the only way they will be happy and free!
