I. **STRUCTURING YOUR BUSINESS**

Listed below are some common forms of business structure. Individuals should select a structure that best fits their needs. Legal and tax considerations enter into this decision.

- A. *A **Sole Proprietorship*** is a business owned by an individual who is solely responsible for all aspects of the business. Under a sole proprietorship the owner is liable for the debts of the business.
- B. *A **Partnership*** is a legal entity which two or more people jointly own. Each partner is jointly and severally liable for the debts of the partnership and for the business conduct of each partner. Formal partnership agreement is recommended.
- C. *A **Limited Partnership*** is similar to a partnership, but some partners have limited liability. The business is operated by a general partner who is liable for all debt. The general partner can be an individual or other business such as a corporation. The limited partner is liable only for the amount the partner has agreed to invest. Formal written partnership agreement is required.
- D. *A **Corporation*** is a legal entity formed for the purpose of engaging in business activities for the profit of the shareholders. A corporation functions as a person pursuant to Virginia law; therefore a corporation may own property, sue or be sued, and enter into other agreements like an individual. S-Corporations and C-Corporations have greatly differing tax structures.
- E. *A **Limited Liability Company*** is an unincorporated association. An L.L.C. offers the advantages of limited personal liability and in some cases, taxing benefits similar to a partnership. Legal and accounting counsel is highly recommended in order to establish your company to meet the specific requirements to qualify for the special taxing benefits.

Each has advantages and disadvantages, and there are several variations of each form. It is advisable to consult an attorney or a certified public accountant to ensure that the form of organization you choose will best meet your needs.

If you decide to incorporate, create a limited liability company, or create a limited partnership, it is handled through the State Corporation Commission.

For more information on business organization, contact the **State Corporation Commission**, Clerk's Office, Tyler Building, 1300 East Main Street, P.O. Box 1197, Richmond, VA, 23218, (866) 722-2551 (toll free from Virginia only), (804) 371-9967 (direct dial) or on the Internet at www.scc.virginia.gov

II. FEDERAL REQUIREMENTS

A. Identification Number

Businesses must have a taxpayer identification number so the Internal Revenue Service can process tax returns. These identification numbers are your *Social Security Number (SSN)* and/or your *Employer Identification Number (EIN)*.

When do you need an Employer Identification Number?

Proprietorships - An Employer Identification Number is needed if: 1) you pay wages to one or more employees, or 2) you file pension or excise tax returns (Source - IRS Pub. 334 - Tax Guide for Small Business).

Corporations, Partnerships and Limited Liability Companies by their nature will have EIN's assigned by the IRS upon registration.

For more information on Employer Identification Numbers, contact the **Internal Revenue Service**, Hampton Walk-in Office, Plaza East II, Suite 105, Hampton, VA, 23666, (800) 829-1040, (757) 262-4007 or on the Internet: www.irs.gov.

B. Business Taxes

All businesses are affected to some degree by local, state and federal tax laws. Business activities that operate for a profit may produce a tax liability, whether the enterprise is a sole proprietorship, a partnership, a corporation, or a limited liability company. The assistance of an accountant may be advisable in determining which taxes your business will be responsible for paying.

For more information on federal business taxes, contact the **Internal Revenue Service**, (800) 829-1040 or on the Internet: www.irs.gov.

B. State Sales Tax, Withholding Tax, Corporate Income Tax and Other Non Property Taxes

Every corporation organized under the laws of Virginia, or having income from Virginia sources, must file a *corporation income tax* return with the Virginia Department of Taxation.

State regulations also require registration with the Virginia Department of Taxation by businesses subject to litter tax, consumer use tax, and tire tax, as well as those required to withhold income tax from employees or to collect sales tax. C. Planning, Permitting and Enforcement

The Planning, Permitting and Enforcement Department administers the County's Zoning Ordinance, reviews site plans, coordinates with the Building Official to review and approve projects involving new construction or building alterations, updates the County's Zoning Ordinance and Comprehensive Plan, and gathers local demographic information. This department offers detailed information about the planning, zoning, and building process. It is suggested that you contact Planning, Permitting and Enforcement at (757) 678-0443 to assist you in this area of starting your own business.

1. How do I decide where to locate my business?

The Northampton County Zoning Ordinance and Map and Future Land Use Map are important tools in determining where to locate a business. The Zoning Ordinance and Map allows certain land uses in a district and provides for other uses with a special use permit. The Future Land Use Map depicts the county's vision for future development, in terms of the types of development the County would like to see in certain areas. It is very important to check with the Zoning Administrator to ensure that the proposed property for your business is properly zoned. It may be necessary to obtain a Special Use Permit or rezone the property to accommodate the proposed use. Both of these actions require Board of Supervisors' approval, and property taxes must be paid before applications are accepted.

2. When do I need to file a site plan and application?

If you are planning to build a new structure, build an addition, rehabilitate/convert an existing structure, or make changes to the property (add parking, reconfigure access to the property, etc.), you will need to file a site plan or an Engineered Site Plan/Plan of Development application with the Planning, Permitting and Enforcement Department. It is recommended that you meet with the Zoning Administrator or Department Director to discuss the project before submitting a formal application.

The site plan will be reviewed by all appropriate review agencies (Virginia Department of Transportation, Virginia Department of Health, etc.). Once all comments have been addressed, a final determination will be issued. It is recommended that you consult with a professional engineer, surveyor, or architect to assist you in the site planning process.

3. Where can I learn about Northampton County's plans for future development?

The Northampton County Comprehensive Plan contains useful information for business owners who are considering locating in the County, including sections on County economics and land uses. This document can be viewed in its entirety on the County's website: www.co.northampton.va.us and at the Planning, Permitting and Enforcement Department.

4. Where can I learn about Northampton County demographics?

Demographic information is important in determining an adequate labor force and customer base. A variety of information on local demographics can be found on the County's website and in the Comprehensive Plan at www.co.northampton.va.us. Further information can be found on the United States Census Bureau's website at www.census.gov or the Virginia Employment Commission's website at www.vec.virginia.gov/vecportal.

For information on site plans, applications, and zoning requirements contact the
Planning, Permitting and Enforcement Department,
P.O. Box 538, Eastville, VA 23347, (757) 678-0443, Fax (757) 678-0483
or on the Internet: www.co.northampton.va.us/

D. Building Permits

Once you have confirmation that your property is properly zoned, property taxes are current, and zoning clearance has been approved for your business, obtaining the proper building permits is the next step. This section provides answers to many commonly asked questions about building permits.

1. When is a building permit required?

A permit is required by the Virginia Uniform Statewide Building Code for almost all repairs, alterations, and new work for buildings, and electrical, plumbing/mechanical (heating & air) work. There are a few limited exceptions. Visit the Building Department section of the County website: www.co.northampton.va.us for full code text and other related information.

2. How long does it take to get a permit?

Permit applications undergo a review process to determine compliance with the building codes. The initial plan review will be within a week of receipt of the application by the Building Official. Please note that all property taxes must be paid before a building permit application will be accepted.

Many factors influence the length of the review process. Submittal of complete plans that fully address code issues including wind-resistant construction and handicapped accessibility expedites the process. Buildings with complex uses or construction may have more code requirements and compliance issues, and the review process may take longer than a more basic plan. Changing the 'use' of a building triggers building code requirements for a new Certificate of Occupancy.

3. Who can apply for a permit?

An owner, tenant, or licensed contractor can legally apply for a permit in Virginia. It is against State Regulations for an owner or tenant to obtain a permit and then hire an unlicensed contractor to do the work. Northampton County encourages property owners to have licensed contractors apply for permits for the work they are doing.

4. Where do you go and who do you see to apply for a permit?

The towns of Cheriton and Cape Charles have their own Building Departments for structures located in their jurisdictions. The Northampton County Building Official administers the Virginia Uniform Statewide Building Code in the rest of the County.

5. What is required if a business wants to add on to an existing building or build a new building?

A site plan, building permit, and approval from the Virginia Department of Health-Northampton County will be required. The site plan and Health Department approval process may take longer than the building code plan review. Many times the building construction plans may be reviewed simultaneously with the site plan and Health Department review; however, a building permit for new construction cannot be issued without approval from the Planning, Permitting and Enforcement Department and the Virginia Department of Health.

6. If I want to erect a sign, what are the requirements?

Signs are regulated by both the state building code and local zoning ordinances. There are restrictions on the size and placement of the signs. Towns within the County have their own zoning requirements and these may differ by jurisdiction. The building code exempts some small signs (10 square feet or less for freestanding and 4 square feet or less for wall mounted). The Building Department has a written policy for plan requirements for non-exempt signs, requiring wind-resistant construction and detailed plans for larger signs. All signs are regulated by the Zoning Ordinance even though they may be exempt from the building code. Prior to obtaining a building permit, a separate sign permit which provides zoning clearance must be approved by the Planning, Permitting and Enforcement Department.

For information on building permits and review requirements, contact the **Northampton County Building Department**, P.O. Box 66, Eastville, VA, 23347, (757) 678-0440, Fax (757) 678-0483 or by e-mail: joutten@co.northampton.va.us or on the internet: www.co.northampton.va.us

E. The Local Office of the Virginia Department of Health

1. Will your business require a new or changed water supply or sewage disposal system?

The Virginia Department of Health-Northampton County regulates water supplies and sewage disposal systems. Additionally, some towns have municipal systems and specific regulations related to connection to these systems. The County requires valid Health Department operations permits as a prerequisite to issuing zoning clearance and building code approval to operate a business.

For more information on water supply and sewage disposal systems, contact the **Northampton County Office of the Virginia Department of Health**, 7114 Lankford Highway, P.O. Box 248, Nassawadox, VA 23413, (757) 442-6228, Fax (757) 442-4307 or on the Internet: www.vdh.virginia.gov

Or in the towns:

Town of Exmore: 757-442-3114 or on the Internet: www.exmore.org

Town of Eastville: 757-678-7789 or on the Internet: <https://townofeastville.com/>

Town of Cape Charles: 757-331-3259 or on the Internet: www.capecharles.org

2. Do you plan to operate a food service establishment?

The following types of businesses, including all of those engaged in food handling, are required to obtain approval from the local office of the Virginia Department of Health and to have periodic inspections of their facilities in order to assure safe and sanitary operations within Northampton County; restaurants, day care kitchens, school kitchens, catering operations, mobile food units, temporary food service events, and almost anytime food is prepared for, or served to, the public. Any alterations, change of ownership, or new construction may require plan review, inspection, and approval by the local office of the Virginia Department of Health. All facilities are required to meet requirements from the Commonwealth of Virginia, Board of Health, Food Regulation 12 VAC 5-421.

3. Are you planning on building a new food service establishment, food market, or renovating a facility that was not previously a restaurant?

Contact the Virginia Department of Health-Northampton County (757) 442-6228 ext. 3 regarding your plans so that an Environmental Health Specialist may advise you of the requirements and prevent any unnecessary delays in processing your application to operate a food service establishment. Plans and specifications for the construction, remodeling, or renovation **are** required. Any application fee information may also be obtained.

For more information on manufacture or distribution of foods, etc., contact the **Northampton County Office of the Virginia Department of Health**, 7114 Lankford Highway, P.O. Box 248, Nassawadox, VA 23413, (757) 442-6228, Fax (757) 442-4307 or on the Internet: www.vdh.virginia.gov

Business activity within the home is limited. A business license cannot be obtained without a Zoning Clearance, and for some specific types of businesses a Special Use Permit may be required.

To verify the zoning of the property you plan to use or for questions concerning zoning of a home-based business, contact the **Planning, Permitting and Enforcement Department**, P.O. Box 538, Eastville, VA, 23347, (757) 678-0443, Fax (757) 678-0483 or on the Internet: www.co.northampton.va.us

2. If I would like to erect a sign for my home occupation, what are the limitations?

A sign for a home business is not required; however, if you desire to have one, then you may have one sign, not to exceed four [4] square feet in size. Such sign shall not be illuminated and the proper zoning and building permits must be obtained as described in section IV, D-6.

To verify the zoning of the property you plan to use or for questions concerning signs for a home-based business, contact the **Planning, Permitting and Enforcement Department**, P.O. Box 538, Eastville, VA, 23347, (757) 678-0443, Fax (757) 678-0483 or on the Internet: www.co.northampton.va.us

3. What kind of business may I have in my home?

The Northampton County Zoning Ordinance criteria for a home occupation require the following:

- Use of the dwelling for the home occupation shall be clearly incidental and subordinate to its use for residential purposes by its occupants;
- Not more than 45% of the floor area of the dwelling unit shall be used in the conduct of the home occupation;
- There shall be no change in the outside appearance of the dwelling unit, accessory building or premises, or any visible or audible evidence of the conduct of such home occupation. No equipment or process shall be used which creates noise, vibration, glare, fumes, odor, or electrical interference detectable to the normal senses from off the residential lot of the dwelling unit. No equipment or process shall be used which creates visual or audible interference in any radio or television receivers off the premises or causes fluctuations in live voltage off the premises; and
- Parking needs generated by such home occupation shall be met off the street.

4. Can I hire people to work for me?

The business owner shall have no more than one (1) full-time employee or two (2) equivalent part-time employees.

5. Is there anything else I should know before I start a Home Occupation?

After obtaining a Zoning Clearance from the Planning, Permitting and Enforcement Department, contact the Commissioner of the Revenue's Office to register your business.
