

# GYMNASTICS

CHECK-IN  
PROCESS

- Participants and parents/guardians are asked to arrive 10 minutes prior to class, wearing a mask, to get properly checked in.
- Participants and parents/guardians are asked to maintain 6-foot physical distance and wait outside the facility until a staff member permits entry.
- Participants and parents/guardians will be asked to verify registration for the given class by confirming the participants name and contact information on the roster.
- Each parent/guardian will be asked Covid-19 symptom screening questions to verify your child's health. Also, participants will have their temperature taken and asked to clean their hands with sanitizer provided by the city of Aurora's gymnastics program.
- Due to concerns of the health crisis and occupancy limits, only participants registered for the class will be allowed to move past the check-in point, no parents/guardians/siblings.
- Participants and parents/guardians are expected to follow these directions explicitly or risk missing the class once all participants have been checked-in and entry doors are closed.
- Parents/Guardians please pick up your child promptly at the end of class at the same entrance where you dropped off your child. Staff will ensure that each participant leaves with a responsible, adult parent/guardian.
