Department of Public Safety

Department Purpose & Overview

The mission of the Lane County Sheriff's Office is to conserve the peace. The Sheriff's Office is committed to justice and integrity, sworn to protect Lane County, and honored to serve. The Sheriff's Office is a multi-faceted public safety organization mandated by Oregon Revised Statutes to provide law enforcement and corrections services to the residents and visitors of Lane County. The Sheriff's Office works to protect the lives and property of Lane County residents and visitors by reducing or preventing victimization, responding to emergencies and calls for service, holding offenders accountable, and maintaining professional standards.

Department of Public Safety

Department Goals & Strategic Planning

- Continue to hire qualified staff that will allow the Sheriff’s Office to maximize services as funding allows.
- Maintain a minimum 25% reduction in capacity based releases from the jail as compared to pre-levy capacity based releases.
- Continue to offer services in the jail geared towards inmates with severe and persistent mental illness. These services include in-custody classes, such as Cognitive Behavioral Therapy and Socialization Classes geared towards reducing the risk of reentry into the criminal justice system by practicing pro-social behaviors, including coping and communications skills.

Strategic Priority:	Safe, Healthy County		
Key Strategic Initiative:	Activity Area:		
Public Safety Funding and Service Delivery	Move to Phase 2 of the Lane County Public Safety Repair Plan. The Sheriff's Office needs at least 30 deputies, 7 sergeants and 5 detectives to maintain what we have without risking high degrees of staff burnout and		
Inputs: <i>To accomplish our goals, we may need the following resources:</i>			
\$1.4 Million additional dollars			
Outputs: <i>Accomplishing these projects will result in the following evidence of progress:</i>			
Additional deputies will allow the Sheriff's Office to maintain the current level of services without risking high degrees of staff burnout and turnover rates. An additional detective will allow investigation of most child sexual assaults and other Measure 11 violent felonies in unincorporated Lane County.			
Intended Outcomes:			
Healthier employees that will not leave the Sheriff's Office for other law enforcement agencies. Better ability to handle the enormous number of calls for service the Sheriff's Office receives, but would not measurably increase patrol or investigative service levels.			
Comments:			
Related Metric: Current number of patrol deputies, detectives, and sergeants

Department of Public Safety

Partnerships

- The Sheriff's Office currently partners with Oakridge Police, Oakridge Fire, and Lane Community College Department of Public Safety for dispatch services, with Lane County Parole and Probation for dispatch, records and property/evidence services and with Coburg Police for dispatch and warrant entry. The Sheriff's Office continues to seek opportunities to provide support services to other Lane County public safety partners.
- The Residential Reentry Center (RRC) program continued to collaborate with the Department of Corrections (DOC) and Sponsors to serve male and female DOC inmates with evidence based reentry services during community reintegration.
- The Corrections Division renewed its contract with the City of Eugene to provide jail bed space and one full time work crew for Municipal Court offenders.
- Lane County Sheriff's Office partners with the cities of Creswell and Veneta, Oregon State Parks, the Oregon State Marine Board, and Bureau of Land Management to provide funding for patrol services to a variety of areas in Lane County.
- The District Attorney's Office contracted one (1) FTE Detective position beginning July 1st, 2020 as a Domestic Violence criminal investigator.
- The Sheriff's Office, Lane County Public Works and the Lane Regional Interoperability Group (LRIG) completed the installation of the new radio site near Glenada to solve a coverage problem within the LRIG radio system in the Florence area and the coast and allow full radio access in several key locations. This will help reduce dangerous scenarios for sheriff's deputies, public works employees, other law enforcement personnel, and other LRIG radio users by increasing interoperability capacity.
- Lane Regional Interoperability Group (LRIG) and the Sheriff's Office completed the IP/Quantar Upgrade Project at the Hagan and Bear radio sites to replace existing LRIG quantars that had reached the end of their service and support capacity, and could not be rebuilt or replaced with available parts. The upgrade was also necessary due to an LRIG system-wide update requiring IP-based radios to allow functionality with Motorola's updated system platform.
- Our Crisis Negotiation Team continues to serve as a multi-agency team, which reduces the burden and cost to the Lane County Sheriff's Office when responding to negotiation callout events.
- The Special Response Team has added two officers from Cottage Grove Police Department, making it a true multi-agency team again.

Department of Public Safety: Office of the Sheriff

Division Overview

The Sheriff oversees all operations of the Sheriff's Office to ensure integrated and consistent application of Public Safety programs. The Office of the Sheriff consists of the elected Sheriff and an executive assistant. The Sheriff is responsible for working closely with Lane County elected officials, department directors and managers, federal, state, and municipal governments and the community members of Lane County regarding public safety issues.

Division Goals & Strategic Planning

One of the County's Key Strategic Initiatives is Public Safety Funding & Service Delivery. The Sheriff will continue to communicate with and inform the community members of Lane County regarding the desperate state of public safety and the need for increased and stable funding for patrol services.

Major Accomplishments & Achievements in FY 19-20

The Sheriff held community meetings in several areas of Lane County to update community members on the service levels and ongoing resource limitations affecting police services.

Anticipated Service & Budget Changes for FY 20-21

The Office of the Sheriff encompasses two employees, the Sheriff and his executive assistant, who provides administrative support. There is no anticipated service or budget changes to the Office of Sheriff.

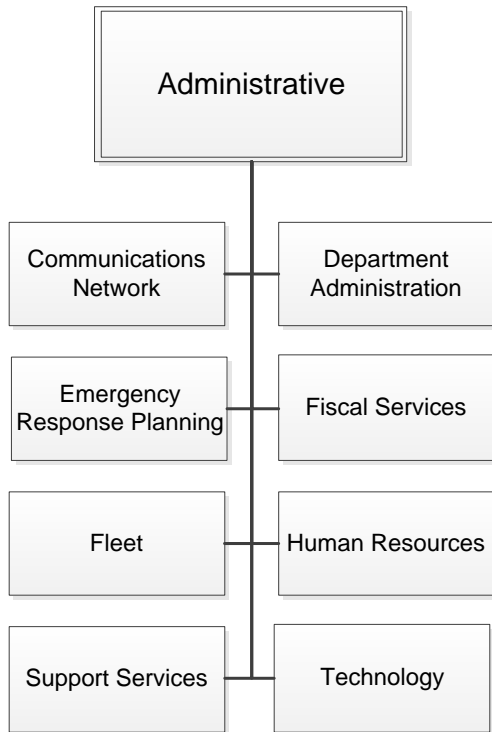

Current & Future Service Challenges

Essential stable funding for the Sheriff's Office, and all of public safety, will continue to be a challenge.

Capital Projects – Planned and Known Needs

None at this time.

Department of Public Safety: Administrative

Division Purpose Statement

The Administrative Division supports all divisions and programs within the Sheriff's Office; providing dispatch services, police records, jail records, property/evidence, training, fiscal management, human resource services, resource development, professional standards, labor relations, volunteer coordination, public information officer, radio infrastructure and legal counsel liaison.

Department of Public Safety: Administrative

Division Overview

The Administrative Division supports all divisions and programs within the Sheriff's Office; providing dispatch services, police records, jail records, property/evidence, training, fiscal management, human resource services, resource development, professional standards, labor relations, volunteer coordination, public information officer, radio infrastructure, and legal counsel liaison. The Administrative Division is responsible for coordination of programs within the department, ensuring that policies and procedures related to budget, accounting, training, personnel, labor contract administration, liability and other administrative functions are consistently applied and followed.

Division Goals & Strategic Planning

The employees of the support division have extensive personal contact with residents and visitors of Lane County, attorneys, vendors, courts and other law enforcement agencies, providing excellent customer service despite continual unfilled positions.

- The Communications Unit provides dispatch services for Sheriff's Office personnel, as well as for Oakridge Police and Fire, Coburg Police Department, Lane County Parole and Probation and Lane Community College Department of Public Safety. This 24/7 unit also handles both emergency and non-emergency phone calls from the residents and visitors of unincorporated Lane County.
- The Police Records Unit is responsible for the care and custody of police reports, warrants and extraditions, completing FBI-mandated data entry and processing public records requests, as well as handling Central Reception duties which include public fingerprinting, concealed handgun licensing, special event permits and sex offender registration.
- The Civil Intake Unit processes requests for the service of protection orders and all other manner of civil process such as evictions and small claims.
- Jail Records is responsible for all paperwork involving the lodging and release of every inmate at the Lane County Jail, to include sentence calculation. Additionally, this unit handles public records requests and provides inmate information to families, attorneys and other agencies.

Major Accomplishments & Achievements in FY 19-20

- The Sheriff's Office purchased 324 tri-band user radio units. All employee users and existing vehicles received the upgraded radio units. The completion of this project resulted in the upgrade and enhancement of our emergency radio operations. The Sheriff's Office sold 20 excess radios to recoup \$100,000.
- The training section's increased use of computer-based and on-line training programs has assisted in reducing the expense of training personnel, including ensuring all sworn and communications personnel met their mandated certification and required training needs in compliance with the Oregon Jail Standards and Department of Public Safety and Standards Training (DPSST) requirements.
- The Police Records Unit is making great strides toward returning to full staffing after several years working with just 75% of their FTE positions filled. There were three successful graduates from the first ever 9 week in-house Records Technical Academy, created to give new-hires a comprehensive understanding of public service/law enforcement and provide technical skills training in a classroom environment. Through their dedication and efficiency, the Police Records Unit has managed to continue meeting mandated public records release timelines and under our contract with Coburg Police Department, has also assumed responsibility for providing them with certain records services.
- After multiple years of being significantly understaffed, the Communications Unit (Dispatch) is on the verge of achieving full staffing which will result in less overtime and better team morale/retention. This will also allow the Sheriff's Office to provide additional contract dispatching service to interested partners. Recently, Coburg Police Department contracted for the handling of dispatch services and 24/7 emergency and non-emergency phone coverage.

Department of Public Safety: Administrative

- The Property/Evidence Unit conducted three Unclaimed Ad processes during calendar 2019 which allowed for the purge/disposal of a significant amount of unclaimed property, increasing the available storage space for current cases as well as bringing money back into the Sheriff's Office budget. In 2020, one Unclaimed Ad process has been completed with more planned.
- As part of a larger project involving our Records Management System/Jail Management System/Computer Aided Dispatch software, Jail Records continues to onboard new Jail Management Software features, which will include a Pre-Booking module that will help streamline the lodging process for all agencies that use the Lane County Jail.
- The Sheriff's Office was awarded a Homeland Security Grant which is aimed at improving radio coverage in the Oakridge area for both county responders as well as their local public safety departments.
- The Sheriff's Office also received a FEMA grant to augment partner funding for repairs to our power system at our Bear Mountain radio site. The new system is estimated to run for 45 days when commercial power is not available.
- A major upgrade of the solar power system at our Indian Ridge repeater site was completed, as this remote site is inaccessible for much of the year and has no commercial power.
- The Lane County Sheriff's Office conventional radio infrastructure has not been upgraded in 15 years and is in need of a much required overhaul. These sites provide primary and secondary communication channels for Lane County Sheriff's Office interoperability and are necessary to continue uninterrupted emergency communications in both urban and rural Lane County, as well as being the only communication channel for Search and Rescue teams. The equipment to upgrade the system has now been purchased and we are moving forward with implementation.

Anticipated Service & Budget Changes for FY 20-21

- In order to maximize efficiency and performance, Police Records will need to more fully leverage our existing Records Management software. Additionally, due to the lack of archive space to store physical documents, scanning equipment will become a necessity within the next fiscal year as the Sheriff's Office begins to transition 30 years of police reports to an electronic format.
- Even fully staffed, the Support Services work units will only have the minimum number of employees needed to operate a 24/7 dispatch center. This minimal staffing will not allow for increased Police Records operating hours, which should be increased to at least 16 hours per day in order to fulfill job responsibilities and optimize public access. Current staffing levels still require supervisor backfill and significant overtime.
- For the Communications, Police Records and Jail Record Units, robust recruitment efforts will need to continue during FY 20-21 in order to keep up with anticipated and unanticipated staff departures and reassignments.
- Two of the Sheriff's Office owned radio towers are aging and require re-galvanization in order to maintain their long-term integrity at an estimated cost of \$30,000 per tower.
- DPSST has fully implemented a newer standard that mandates for Corrections Deputy Sheriff staff to meet the same maintenance standards as the Police Deputy Sheriff staff. This requires tracking of an additional 140 personnel for the Training Section to ensure maintenance requirements are fulfilled.

Current & Future Service Challenges

- Recruitment and successful training of communications officers (dispatchers) continues to be difficult. Since our budgeted positions are at the minimum level needed to operate a 24/7 center Sheriff's Office has had to utilize overtime, as well as pulling supervisors into line level positions on a regular basis in order to continue operations. Budgeting allows very little room for advanced recruitment and training efforts to occur to assist with continuity of operations when notified of a pending resignation.

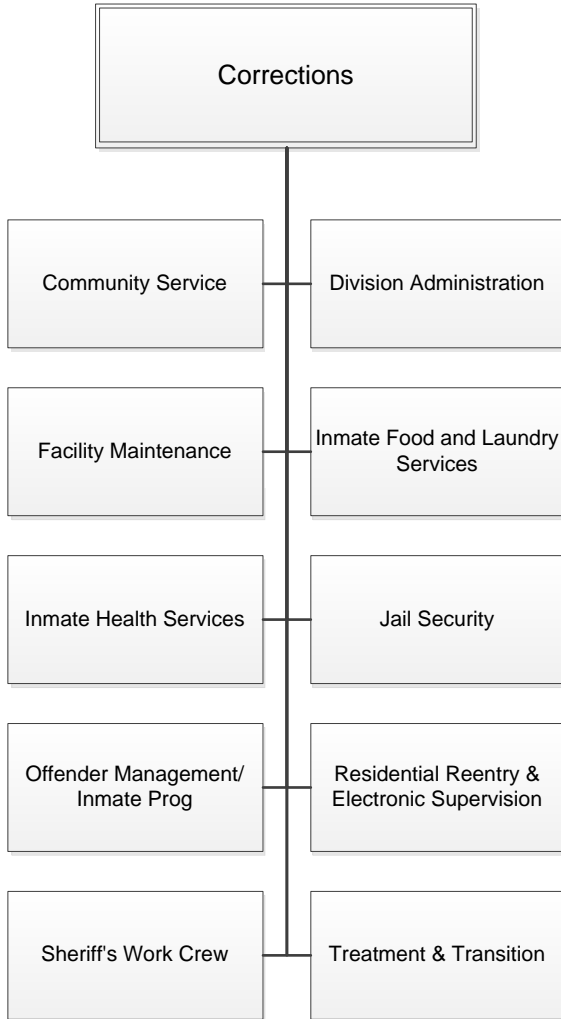

Department of Public Safety: Administrative

- The new Oregon Public Records law mandates a response time to requests for public records. Filling these requests was already challenging with a partially staffed workgroup prior to the new law. Additionally, there has been a 32% increase in the number of public records requests received by police records in the last year. The equivalent of one FTE has been pulled away from other records work to focus on responding to these requests within the state mandated timeline.
- There has been a 17% increase in the number of civil papers and protection orders processed by our civil intake unit. Over 5000 overtime and extra help hours were worked last year in order to handle the increased workload across police records, which includes the civil intake unit.
- Periods before and after presidential elections have shown to correlate to significant increases in new Concealed Handgun License (CHL) applications. In addition to the increased demand for new CHLs, social distancing requirements due to COVID have eliminated the ability to process and fingerprint multiple applicants at once due to the size of the fingerprint room. While many steps have been taken to alleviate the strain on staff and CHL applicants, including moving to a mail in system for CHL renewals, the current appointment system for new CHL applicants is booked out well into 2021. The CHL Unit staff of two is strained under the demand for both new CHLs and license renewals.
- As part of ongoing work on our Radio Communications Plan, the Sheriff's Office must continue to conduct all-hazard inspections of every radio site in order to identify current and future issues in order to manage costs and mitigate resource impacts.
- The Sheriff's Office Dispatch Center uses 7 Motorola Consolette radios for backup communications to Lane Radio Interoperability Group (LRIG) sites, as well as primary devices for recording radio traffic on our primary communications channels. These are scheduled for replacement in FY 20-21. Parts are not readily available to repair the current radios and there is an increased rate of failure. In addition, there have been new LRIG sites that have been activated that the Sheriff's Office has no consollettes assigned to. Two additional consollettes need to be purchased to maintain backup on Sheriff's Office LRIG channels at all LRIG sites within reach of the Courthouse tower. A total of 10 consollettes would need to be upgraded, and expanded in order to provide reserve radios for repair of the current consollettes used by LCSO Dispatch.

Capital Projects – Planned and Known Needs

- The Sheriff's Office impound lot needs metal fencing for security and a covered area for evidentiary vehicles.
- The Sheriff's Office is a partner with Eugene Water and Electric Board (EWEB) in the operation and maintenance of three microwave links. This 15-year old microwave link connects Bear, Hagan, Blanton and the Lane County Courthouse for radio data and other communication needs and supports multiple agencies. Due to the age and scarcity of available parts, replacement is necessary in the next 1-2 years. LCSO and EWEB will share the expenses of the project, estimated at \$201,000.
- Restroom remodel in the administrative area of the Sheriff's Office is needed. The bathroom facilities are old, have never been updated and are very difficult to clean and sanitize. These restrooms are used by not only the personnel assigned to the Administrative Division, but also by employees within the Police Services Division as there are no restroom facilities where the Police Services Division is located.
- The current dispatch console furniture has been in use 24/7 for over 16 years and is showing definite signs of age (average industry lifespan is 10 years). Contingency planning will be necessary, as these eight consoles will require replacement in the near future.

Depart of Public Safety: Corrections

Division Overview

The purpose of the Lane County Sheriff's Office Corrections Division is to protect the community by providing a safe environment to incarcerate and supervise pretrial criminal defendants and sentenced offenders. The sections of the division include security (the main jail) and alternative programs, including the Defender/Offender Management Center (DOMC); the Residential Reentry Center (RRC), the Sheriff's Work Crew (SWC); and Community Services.

Division Goals & Strategic Planning

The Corrections Division contributes to public safety by maintaining a balanced correctional system of institutional and community programs which provide a range of control and rehabilitation options for defendants and offenders. Goals for the coming fiscal year include:

- Develop and maintain partnerships with internal and external stakeholders, as well as community partners.
- Develop and maintain progressive mental health programming in the Corrections Division. This includes:
 - Provide mental health services to a large portion of the inmate population.
 - Continue to collaborate with Wellpath (contracted medical provider) and Lane County Behavioral Health (LCBH) professionals and other community partners to assist in the successful implementation of the IMPACTS grant, Forensic Intensive Treatment Team, and court liaisons.
- Continue efficient utilization of existing levy funding to maintain 367 local offender beds.
- Enhance and improve video recording and storage systems in the Corrections Division.
- Continue to develop and maintain a highly trained Special Operations Response Team to effectively respond to community emergencies with a focus on major disturbances within a correctional setting.
- Maintain and monitor Community Corrections Act (CCA) funding levels.
- To strengthen/build our relationship with current and new community partners to maintain funding for a fully staffed Sheriff's Work Crew (SWC) that provides an alternative to incarceration for lower risk offenders. This program is important as it allows offenders the ability to maintain their community and family relationships while resolving their court matters.
- Develop and review how the Residential Reentry Center (RRC) can have a positive impact in the community. This includes:
 - Research stable funding for 24 beds.
 - Increased monitoring for Pre-trial defendants.
 - Increased Release Lane County (RLAN) participation.
- Increase safety and security measures in the jail facility by fully implementing the use of the already installed body scanner designed to detect contraband.
- To provide safe access to the jail for the public and staff, structural modifications to the exterior of the jail are being completed.
- To develop a Wellness program for staff.
- Continue to provide training for staff that develops communication and awareness. This includes:
 - Transgender Awareness Training
 - Positional Asphyxia and Excited Delirium Training
 - Use of Force scenario based defensive tactics training utilizing verbal de-escalation techniques during critical incidents to include mental health crisis events.

Depart of Public Safety: Corrections

Major Accomplishments & Achievements in FY 19-20

- The amount of time inmates spend out of their cell was increased to reduce isolation and increase chances for socialization.
- The RRC program continued to collaborate with the Department of Corrections (DOC) and Sponsors to serve male and female DOC inmates with evidence based reentry services during community reintegration.
- The Corrections Division increased staffing to meet increased offender capacity. This was accomplished through Facility Support positions and a second 3-South deputy to meet the needs of the expanding mental health program.
- Continued mental health services and programming has provided more services to a greater number of male and female inmates.
- Completed a critical section of the roofing project during a pandemic and community unrest.
- Partnered with Trans*ponder to provide gender identity and diversity awareness training to staff. The Sheriff's Office is the first local agency to receive this training.
- During the COVID pandemic, the Corrections Division was able to put protocols in place to keep Adults in Custody (AIC), business partners and staff safe. This includes:
 - Set up several video "courtrooms" and video arraignment processes to provide AICs uninhibited access to the courts without the need for transport to the court house.
 - Established protocols for attorneys to have safe and secure conversations with their clients.
 - Purchased 11 audio/video systems for attorney/client rooms that will allow secure and privileged video conferencing between adults in custody and their attorneys, the court, or other professional contacts.
 - Worked with Public Health and Wellpath to offer Covid-19 testing to all AICs.
 - Worked with Wellpath to establish a medical screening at the time of book in to limit the risk of exposure.
 - Worked with the phone vendor (Telmate) to provide additional phone calls and video visits at no cost to the Adults in Custody.

Anticipated Service & Budget Changes for FY 20-21

- The SWC continues to require General Fund allocation in order to maintain existing services. This program reduces the utilization of jail beds by lower risk offenders and provides a vital workforce to government and non-profit organizations.
- The RRC continues to experience challenges with contracted agencies utilizing RRC beds. Contract restrictions drastically impact the budget in this program when RRC beds are left vacant. COVID has added another layer of challenges filling these beds.
- Future funding unknowns with the Community Corrections Act (CCA) presents a challenge moving forward. The RRC has dedicated beds for CCA qualified inmates to serve jail sentences. The RLAN program includes partnerships with DOC and Sponsors and CCA funding is a critical component of this program.

Current & Future Service Challenges

- As staffing positions are filled through hiring processes, the logistics of training those who are newly hired remains a challenge. This process requires a minimum of 28 weeks of on-the-job and academy training before a deputy is ready to functionally fill a position.
- Lane County continues to be a high utilizer of beds at the Oregon State Hospital, often using more than double the allotted amount. In an effort to provide alternatives to incarceration of mentally ill persons within the community, Lane County was awarded an IMPACTS grant. The Sheriff's Office is committed to working with Wellpath, LCBH and other local agencies to meet the goals of the IMPACTS grant.

Depart of Public Safety: Corrections

- The Corrections Division must continue an aggressive succession plan for potential leaders due to multiple supervisors and managers retiring in the next 1-4 years.
- Attrition, reassignments, promotions and retirements will place a significant emphasis on hiring and training deputy sheriffs and support staff positions.

Capital Projects – Planned and Known Needs

- The current Lane County Jail opened in 1979, and has served as the County's primary jail since that time. Since the initial construction, two additions to the jail have occurred increasing the overall size of the facility. The Sheriff's Office has currently outgrown the design of the building in many ways. The layout of the building is inefficient and not designed for the type of defendants and offenders currently being housed in the jail, creating supervision challenges.
- The aging jail is increasingly having structural and system failures.
- An updated jail intake area is needed that would better serve the Booking/Segregation and Medical operations. Most inmates are released from the facility with 24-48 hours. Many of the inmates are placed in these areas during this time. An updated design would provide a more effective and efficient operation.
- The second floor dorms inmate housing area (96 beds) is not currently being utilized. The types of defendants and offenders routinely lodged require more secure housing than this area is designed to accommodate.
- Many of the existing jail's roofs are original and it is just a matter of time before they end in a critical state. On ongoing roofing replacement plan needs to be in place to address the remaining original roofs.
- The jail fire alarm system is obsolete and repair is no longer an option.
- The four jail elevators are 40-year-old systems, utilized 24 hours a day, and have intermittently failed, with entrapments of the public, staff and inmates. Repair parts are no longer available.

Department of Public Safety: Police Services

Division Overview

The Lane County Sheriff's Office Police Services Division provides law enforcement services to the citizens and visitors of Lane County. The Sheriff's Office works to protect the lives and property of Lane County visitors and residents by reducing or preventing victimization and responding to emergencies involving life safety, and other calls for police service as allowed by the level of resources available. The Police Services Division provides critical, statutorily mandated services including: Court Security, Prisoner Transport, and Civil Process Service. The Police Services Division also provides:

- Contract law enforcement services for the cities of Creswell and Veneta; Oregon State Marine Board; the Bureau of Land Management (BLM) for public lands under their control; District Attorney's Office Domestic Violence Investigator; Lane County Public Works for Motor Carrier Enforcement (Weighmaster Function); and Oregon State Parks for patrol of sand dune recreation areas on the Oregon coast.
- Advanced skilled investigations from the detectives in the Criminal Investigations Section for crimes against children, homicide, and other serious persons' crimes.
- Tactical response and crisis negotiations for high risk calls from the Special Response Team and Crisis Negotiation Team.
- Search and Rescue response to lost, injured and missing persons.

Division Goals & Strategic Planning

Providing adequate law enforcement services to our residents living in unincorporated Lane County continues to be far out of reach due to ongoing budget restraints. Covering over 4,600 square miles with three deputy sheriffs and a sergeant normally on duty continues a pattern of only being able to respond to the highest priority life safety calls for service.

- Currently, County Patrol is staffed with 25 deputy sheriffs, which allows enough staff to provide 24 hour response to emergency calls for service without dropping below minimum staffing levels (three deputies and a sergeant for dayshift and swing shift, and two deputies and a sergeant for graveyard). However, a 2013 study conducted by the Police Executive Research Forum (PERF), warned that staffing levels need to be increased to at least 30 patrol deputies (with an additional sergeant and detective) to maintain current service levels without risking high staff burnout and turnover rates. Restoring patrol to 30 deputies would bring patrol up to approximately 68% of the 2003 level and 31% of the 1979 level. An additional detective would restore the Criminal Investigation Section to 5 detectives, approximately 20% of the 1979 staffing level, but sufficient to investigate most child sexual assaults and other Measure 11 violent felonies in unincorporated Lane County. Restoring the Police Services Division of the Sheriff's Office to Phase 2 of the Lane County Public Safety Repair Plan will not measurably increase patrol or investigative service levels, but would allow the Sheriff's Office stability without risking high degrees of staff burnout and turnover rates that continue to occur as we lose staff to agencies with greater resources
- The Sheriff's Office is unable to be the primary investigating agency of fatal crashes on County roads where criminal prosecution is likely to occur due to lack of trained staff and necessary equipment. The Sheriff's Office has identified two deputies who have received crash investigation training; however, finding funding for the necessary equipment remains a challenge.
- Two additional deputy sheriffs (detectives) are needed in order to investigate the most egregious felony property crimes that occur in unincorporated Lane County.
- The volume of cases that include computer or phone forensic evidence has increased significantly. Case law changes that require trained personnel to handle the collection of this evidence has caused the Sheriff's Office to place a higher priority on funding a computer forensic investigator position in order to keep up with the incredible amount of digital evidence that is a part of almost every case the Sheriff's Office handles. The processing of digital evidence is often critical to prosecution of major crimes such as homicide, robbery, and sex abuse cases.

Department of Public Safety: Police Services

Major Accomplishments & Achievements in FY 19-20

- Four deputy sheriffs completed a 32-40 week training process including police academy and field training, and are now able to work independent of a field training officer. There are three additional deputies in field training scheduled to be completed mid-July.
- The Criminal Investigation Section, with four detectives and a sergeant, continues to investigate a high volume of sex crimes, serious assaults, homicides and child abuse cases for our service population of 109,000 people. In comparison, the City of Eugene has 34 FTE and the City of Springfield has 15 FTE assigned to these types of cases. Additionally, these detectives routinely assist the cities of Cottage Grove, Oakridge, Florence and Junction City with serious felony cases occurring in their jurisdictions. Lane County Detectives investigated seven homicide cases and seven Officer Involved Shootings in 2019 in addition to their daily caseload.
- Lane County Search and Rescue (SAR) volunteers responded to over 135 calls for service in 2019 and participated in over 27,000 hours of training, meetings, and public events. The SAR 101 class was attended by 21 new volunteers who successfully completed the minimum Oregon State Sheriffs' Association SAR standards course of 110 hours. SAR currently has 217 mission ready volunteers.
- The Sheriff's Office continues to administer the Lane Regional Reserve Officer/Deputy Academy, providing each candidate with more than 300 training hours from various law enforcement agencies in the County.
- A traffic enforcement overtime grant in the amount of \$25,000 provided for deputies to conduct targeted driving under the influence of intoxicants (DUII) and seatbelt compliance enforcement during high visibility holidays and events. This participation aligns with the County's Transportation Safety Action Plan and the goal of "Toward Zero Deaths."

Anticipated Service & Budget Changes for FY 20-21

- The contract with City of Creswell has asked for one (1) FTE deputy position to be added.
- Due to retirements and promotions within the next year, an additional four to six deputies will need to complete academy and field training to fill the anticipated vacancies.

Current & Future Service Challenges

- The Police Services Criminal Investigation Section needs an additional position dedicated and trained in computer, cell phone and other mobile device forensic examinations. Due to the prolific use of these electronic devices, the examination of a device is frequently a key component in an investigation. The current staffing levels of the Criminal Investigation Section only allow for investigation of the most serious crimes (homicides, child abuse and sexual assault cases). Other crimes, including aggravated felony level property crimes and some significant person crimes are being handled at the patrol officer level, often times not receiving the appropriate level of follow-up necessary for successful prosecution.
- Lane County is experiencing record numbers of traffic fatalities and is currently number one in the state. Due to budget cuts in 2008 and 2012, the Lane County Sheriff's Office has seen an 88 percent reduction in the number of citations issued for dangerous driving behavior. Enforcement is one of the three key components (Education, Enforcement, and Engineering) in reducing traffic fatalities and other significant injury crashes. At our current staffing level, Lane County Sheriff's Office patrol deputies have very little, if any, time for proactive traffic enforcement due to handling emergency calls for service and other mandated patrol functions.
- Due to retirements, promotions, other staff moves and the length of time it takes a patrol deputy to attain solo status, keeping our allocated patrol positions filled has been a challenge. It takes almost a year for a patrol deputy to attend the DPSST Police Academy and complete FTEP (Field Training). We currently have five patrol deputies in various phases of training. Additionally, we have several more patrol deputies at or near retirement age. Due to these factors, we anticipate being in a training cycle for the next couple of years.

Department of Public Safety: Police Services

- Other local law enforcement agencies are actively recruiting our trained and certified deputies. These agencies are offering significant signing bonuses, providing enhanced levels of vacation and sick time bank hours and offering expedited hiring processes to minimize the stress and difficulty of testing for a new job.

Capital Projects – Planned and Known Needs

- The Sheriff's Office is in need of a large storage building (approx. 60' X 140') and footprint to house emergency response vehicles and equipment from SAR, Marine Patrol and the Special Response Team. Absent the allocation of money from the Capital Improvement budget, there is no current funding source for this building. The Sheriff's Office currently pays Public Works over \$40,000 dollars annually in rent for covered and/or climate controlled storage areas, which are not large enough to meet our current needs. If an alternate space was located, a portion of the current rent could be re-allocated to meet these costs.
- Conference Room 175 does not have sufficient space to conduct trainings or to hold larger meetings. The remodel would add space that is currently not being used in an efficient manner.
