**Executive Summary**

Chapter II, Growth Management Policy 1,5 of the Eugene-Springfield Metropolitan Area General Plan (Metro Plan) provides requirements for the creation of new special service districts within the plan boundary. This policy was adopted prior to changes in local government financing that resulted from the passage of Ballot Measures 5,47 and 50. These changes drastically affected the county's ability to finance public safety services at appropriate levels both inside and outside of the Metro Plan. Amendments to the Metro Plan are necessary to enable the authorization of a new financing vehicle without undermining the compact urban growth policies of the Metro Plan.
