(1) Records of a public body pertaining to litigation to which the public body is a party if the complaint has been filed, or if the complaint has not been filed, if the public body shows that such litigation is reasonably likely to occur. This exemption does not apply to litigation which has been concluded, and nothing in this subsection shall limit any right or opportunity granted by discovery or deposition statutes to a party to litigation or potential litigation.

(2) Trade secrets. “Trade secrets,” as used in this section, may include, but are not limited to, any formula, plan, pattern, process, tool, mechanism, compound, procedure, production data, or compilation of information which is not patented, which is known only to certain individuals within an organization and which is used in a business it conducts, having actual or potential commercial value, and which gives its user an opportunity to obtain a business advantage over competitors who do not know or use it.

(3) Investigatory information compiled for criminal law purposes. The record of an arrest or the report of a crime shall be disclosed unless and only for so long as there is a clear need to delay disclosure in the course of a specific investigation, including the need to protect the complaining party or the victim. Nothing in this subsection shall limit any right constitutionally guaranteed, or granted by statute, to disclosure or discovery in criminal cases. For purposes of this subsection, the record of an arrest or the report of a crime includes, but is not limited to:

Records establishing procedures for and instructing persons administering, grading or evaluating an examination or testing procedure are included in this exemption, to the extent that disclosure would create a risk that the result might be affected.

(5) Information consisting of production records, sale or purchase records or catch records, or similar business records of a private concern or enterprise, required by law to be submitted to or inspected by a governmental body to allow it to determine fees or assessments payable or to establish production quotas, and the amounts of such fees or assessments payable or paid, to the extent that such information is in a form that would permit identification of the individual concern or enterprise. This exemption does not include records submitted by long term care facilities as defined in ORS 442.015 to the state for purposes of reimbursement of expenses or determining fees for patient care. Nothing in this subsection shall limit the use that can be made of such information for regulatory purposes or its admissibility in any enforcement proceeding.

37. Any document or other information related to an audit of a public body, as defined in ORS 174.109, that is in the custody of an auditor or audit organization operating under nationally recognized government auditing standards, until the auditor or audit organization issues a final audit report in accordance with those standards or the audit is abandoned. This exemption does not prohibit disclosure of a draft audit report that is provided to the audited entity for the entity’s response to the audit findings.

38(a) Personally identifiable information collected as part of an electronic fare collection system of a mass transit system.

(b) The exemption from disclosure in paragraph (a) of this subsection does not apply to public records that have attributes of anonymity that are sufficient, or that are aggregated into groupings that are broad enough, to ensure that persons cannot be identified by disclosure of the public records.

(c) As used in this subsection:

(A) “Electronic fare collection system” means the software and hardware used for, associated with or relating to the collection of transit fares for a mass transit system, including but not limited to computers, radio communication systems, personal mobile devices, wearable technology, fare instruments, information technology, data storage or collection equipment, or other equipment or improvements.

(B) “Mass transit system” has the meaning given that term in ORS 267.010.

(C) “Personally identifiable information” means all information relating to a person that acquires or uses a transit pass or other fare payment medium in connection with an electronic fare collection system, including but not limited to:

(i) Customer account information, date of birth, telephone number, physical address, electronic mail address, credit or debit card information, bank account information, Social Security or taxpayer identification number or other identification number, transit pass or fare payment medium balances or history, or similar personal information; or
(ii) Travel dates, travel times, frequency of use, travel locations, service types or vehicle use, or similar travel information.

(39)(a) If requested by a civil code enforcement officer:
   (A) The home address and home telephone number of the civil code enforcement officer contained in the voter registration records for the officer.
   (B) The name of the civil code enforcement officer contained in county real property assessment or taxation records. This exemption:
      (i) Applies only to the name of the civil code enforcement officer and any other owner of the property in connection with a specific property identified by the officer in a request for exemption from disclosure;
      (ii) Applies only to records that may be made immediately available to the public upon request in person, by telephone or using the Internet;
      (iii) Applies until the civil code enforcement officer requests termination of the exemption;
      (iv) Does not apply to disclosure of records among public bodies as defined in ORS 174.109 for governmental purposes; and
      (v) May not result in liability for the county if the name of the civil code enforcement officer is disclosed after a request for exemption from disclosure is made under this subsection.
   (b) As used in this subsection, “civil code enforcement officer” means an employee of a public body, as defined in ORS 174.109, who is charged with enforcing laws or ordinances relating to land use, zoning, use of rights-of-way, solid waste, hazardous waste, sewage treatment and disposal or the state building code.

(40) Audio or video recordings, whether digital or analog, resulting from a law enforcement officer’s operation of a video camera worn upon the officer’s person that records the officer’s interactions with members of the public while the officer is on duty. When a recording described in this subsection is subject to disclosure, the following apply:
   (a) Recordings that have been sealed in a court’s record of a court proceeding or otherwise ordered by a court not to be disclosed may not be disclosed.
   (b) A request for disclosure under this subsection must identify the approximate date and time of an incident for which the recordings are requested and be reasonably tailored to include only that material for which a public interest requires disclosure.
   (c) A video recording disclosed under this subsection must, prior to disclosure, be edited in a manner as to render the faces of all persons within the recording unidentifiable.

(41) The contents of tips reported to a tip line, as defined in ORS 339.329. However, personally identifiable information, as defined in ORS 339.329, is not subject to public interest balancing under this section and remains exempt from disclosure except as provided in ORS 339.329.
