Land Owner (print name): _____

Mailing address: _____

Phone: _____ Email: _____

Through applying for this application I authorize the Lane County Planning Director, designee, or hearings official to enter upon the property subject of the application to conduct a site visit necessary for processing the requested application. Lane County shall contact the Land Owner prior to the site visit to arrange an appropriate time for the site visit.

Land Owner Signature: _____

LOCATION

Township Range Section Taxlot(s)

Site address _____

PROPOSAL: A request for a Preliminary Investigation in accordance with Lane Code 16.243.

This application is based on objective evidence and is not a land use decision; therefore, the decision is not subject to public notice and may only be appealed by the applicant.

NOTICE: The Applicant is responsible for providing enough information in this application for staff to make reasonable findings.

The Preliminary Investigation will determine the presence of any hazards to the proposed development. If a significant hazard is found that requires further review, a Site Investigation Report will be required. Details regarding a Site Investigation Report are contained in Lane Code 16.243(12) to 16.243(16).

PROJECT DESCRIPTION What are you proposing? What are you going to build?

SITE PLAN A site plan must be included. Refer to the handout entitled “How to prepare your plot plan”. Identify nearby driveways. Driveways spacing standards are contained in Lane Code 15.138.

ZONING: _____

ACREAGE: _____

LOCATION Describe how to find the property. Is the address visible? Are there any identifying features?

EXISTING IMPROVEMENTS: What structures or development does the property contain? Will any structure be removed/demolished?

STAKE OUT THE DEVELOPMENT AREA. The location of the structure(s) must be staked out on the site and identified with colored ribbon or a similar item.

PHYSICAL FEATURES: Describe the site.

- The Vegetation on the property: _____

- The Topography of the property: _____

- Any Significant Features of the property (steep slopes, water bodies, etc.): _____

APPROVAL CRITERIA

LC 16.243 Beaches and Dunes Combining Zone Criteria:

(8) Additional Site and Development Requirements. The following requirements apply to all development, except the harvesting of timber as allowed by the Zone with which the /BD-RCP Zone is combined. Timber harvesting activities shall conform to Oregon Forest Practices Act rules regulating logging practices in dune areas:

(a) Development shall not result in the clearance of natural vegetation in excess of that which is necessary for the structures, required access, fire safety requirements and the required septic and sewage disposal system.

Footprint of the proposed structure(s): _____ sf

Total area of vegetation clearance: _____ sf

Explain why your proposed vegetation clearance is not excessive: _____

(b) Vegetation free areas which are suitable for development shall be used instead of sites which must be artificially cleared.

Does the property contain any vegetation-free areas? Yes No

If you are not using the vegetation-free area, explain why: _____

(c) Areas cleared of vegetation during construction in excess of those indicated in LC 16.243(7)(a) above shall be replanted within nine months of the termination of major construction activity.

This will be a condition of approval.

(d) Sand stabilization shall be required during all phases of construction and post-construction as specified by standards set forth in the Lane Manual.

If the site is comprised of sandy soil, you will be required to stabilize the soil during construction, and permanently stabilize the soil within 90 days after construction. Acceptable stabilization methods are listed in Lane Manual 10.056. If applicable, this will be included in the packet mailed to you.

(e) Development shall result in the least topographic modification of the site as is possible.

Does your plan comply with this requirement? Explain: _____

(f) Slopes in excess of 25 percent shall be prohibited from development.

Do you plan to disturb any slopes greater than 25%? If yes, explain: _____

(g) Significant structural loads or structural fills to be placed on dune areas where, based on the Development Hazards Checklist, compressible subsurface areas are suspected, shall be allowed only after a thorough foundation check and positive findings are reported.

If applicable, an engineer may be required to prove the site can support the proposed structure. If so, this will be a condition of approval.

(h) The requirements for yards, setback, area, vision clearance and parking spaces shall be as provided in the respective zone with which the /BD-RCP Zone is combined, unless specifically provided otherwise by the provision of the /BD-RCP zone.

What is the property zoned: _____

What are the setbacks: _____

These setbacks and zoning will be verified by planning staff.
