

Notice of Study Commencement

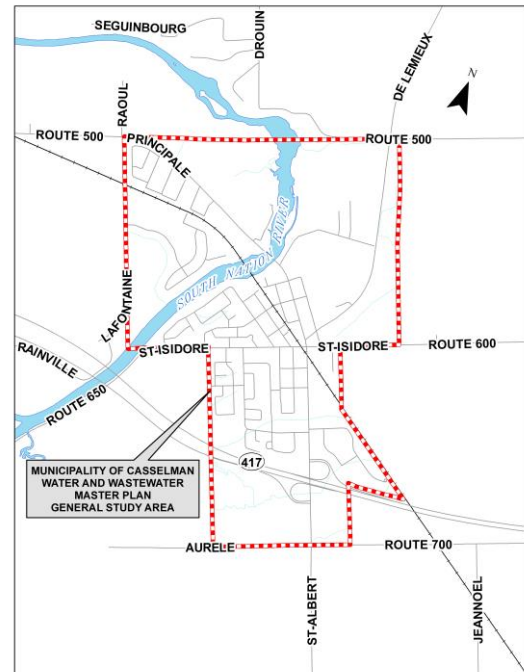

The Municipality of Casselman Water and Wastewater Infrastructure Master Plan

The Municipality of Casselman (the Municipality) has initiated a Master Planning process in accordance with Approach 1 of the Municipal Engineers Association (MEA) Class Environmental Assessment (Class EA) to develop a Water and Wastewater Infrastructure Master Plan.

How Will This Affect Me?

The Master Plan study is assessing various options to improve the performance and reliability of the water and wastewater treatment and sewage collection systems to ensure they can be relied upon to accommodate current and future flows generated within the Municipality.

Public and agency consultation is a key part of the Master Planning process. Based on your input, the Master Plan study will identify preferred solution(s) that will benefit the community over the short, mid, and long terms.

How Do I Get More Information?

A Public Information Centre will be held in late 2022 prior to confirming the preferred solution(s). In the meantime, the study team will be reviewing background information and determining alternative solutions. You can contact a member of the study team listed below with any questions or to provide input on the Master Plan study. Updates will also be provided throughout the Master Plan study on the Municipality's website.

Susan Jingmiao Shi, P.Eng., M.Eng.
Senior Environmental Engineer
J.L. Richards & Associates Limited
203-863 Princess Street
