

A. C. BRASE ARENA

AFTER

BEFORE

RIBBON CUTTING

ABOUT THE PROJECT

This project need was identified to upgrade and maintain one of the Department's most historic facilities. In 2009, the A. C. Brase Arena exterior received a face lift. The 70 year old facility was resurfaced, and had steel awnings installed with a new sign. The facility also received a new roof, new air conditioner units, electrical upgrades, and a new generator. Offices were also completed, as well as new landscaping around the exterior of the building. These improvements are being utilized by our citizens and visitors.

PROJECT IMPACTS & BENEFITS

- Upgrades to an historic Cape Girardeau landmark
- Beautification of the facility
- Increased functionality for a community building that hosts events like Parks & Recreation Foundation Spaghetti Day, Lion's Club Pancake Day, Cape Noon Optimist Chili Day, and many more
- Improved rental space for the public
