Permit Review and Issuance

- A separate permit is require for every trade type identified above, even if the work is being performed by the same contractor. E.g. Electrical and fire alarm, HVAC and temperature control wiring, etc.
- Permits may require up to 10 business days to process. If during the Village’s review of the application information is missing or additional information is required, the permit will be placed on hold. Once the information is received, the 10-day review period will start over. The Applicant will be contacted when the permit is ready to be issued with total permit fees due and (if) any additional requirements.
- It is the responsibility of the permit holder (applicant) to call and schedule all required inspections with the Building Inspection Department within 48 hours of the requested inspection date at 262-694-9304.

Before digging, call Diggers Hotline at 1-800-982-0299 to have all underground utilities marked.

Applicant Signature

I hereby certify that all of the above statements and submitted attachments are true and correct to the best of my knowledge. Furthermore, I understand that a triple fee will apply for any work started or completed without proper permits.

I hereby apply for a permit herein described and as shown on the attached required applications and plans, and hereby agree that the work performed will be in accordance with all applicable Village, County, State or Federal codes and references therein. The applicant further agrees to permit the inspection of the project by the Building Inspection Department inspectors during regular business hours.
