14. How many licenses are permitted in Jersey City?

There is no cap to the maximum number of licenses permitted in Jersey City. Instead, Jersey City is regulating the location and proximity of Cannabis Establishments and Distributors through zoning. Class 1 to 4 licenses are limited to certain zones. Class 5 licenses are limited to certain zones and in addition are typically 600 feet from one another. Other distance restrictions apply. For example, the main entry of a cannabis retailer cannot be located within [200 feet \(§ 345-60.5. – 4.C.2.a\)](#) of a school as recorded on this [map](#). To see where retailers may be permitted download the [Cannabis Retailer Reference Map](#).

15. What benefit is there to being a microbusiness?

The benefit to being a microbusiness in Jersey City is that our local zoning is more permissible toward microbusinesses. Standards regarding microbusinesses was done to promote equity and local entrepreneurship in the Cannabis industry. For a Class 5 Cannabis Retailer license holder that is also a microbusiness, the separation distances are loosened. In certain areas of the city, two microbusinesses are permitted per block. Other restrictions apply.

A microbusiness is defined in the [State law](#) and must be certified by the State commission. A microbusiness is an entity where 100% of ownership must be held by a current resident of New Jersey for two consecutive years, as well as 51% of the owners, directors, officers, or employees shall be residents of the municipality the business operates in. In addition, a Microbusiness cannot employ more than 10 employees and have a premise no larger than 2,500 square feet. Check state law for exact definition and criteria.

16. What is the local process for a Class 6 license – Cannabis Delivery?

An entity seeking a Class 6 license does not have to make an application to the Division of City Planning but it must make an application to the Cannabis Control Board. An entity seeking a Class 6 license should also get a favorable Zoning Determination letter from the Division of Zoning. The Division of Zoning will determine how to categorize the Cannabis Delivery operation at the proposed location. For example, some entities could be just an office for a mobile platform company that does not own a fleet. While another delivery service may have a fleet

of vehicles may have to store vehicles. The former is akin to an office use and the second is more like an industrial use. So, these two different examples could be viewed as two different uses even though they are both Cannabis Delivery operations. In other, Class 6 license holders will be categorized as necessary into existing land use classifications.

17. How to request locations of cannabis retailers?

Please reach out to the Division of City Planning staff listed under question 19. Staff will provide a list upon request. The list will be updated upon confirmation from the State that a Cannabis Retailer Class 5 license was approved.
