

APPLICATION FOR DEVELOPMENT Procedures & Instructions

NOTE: ALL PLAN SETS MUST BE FOLDED BEFORE SUBMISSION

Revised: November 10, 2015

1. Submit one (1) completed Jersey City General Development Application and one full size, signed and clearly sealed, stapled and **FOLDED** set of development plans, along with a \$150 deposit and supporting documents as described within the General Development Application instructions. Applicant will receive a signed “Receipt of Documents” which only certifies that materials were submitted on a specific date and accepted by a specific member of the City Planning Division staff. This “Receipt” is not an indication of the “completeness” of submitted materials or that the documents submitted constitute a valid application.
2. Within 45 days of receipt of the materials listed in Paragraph 1 above, the applicant will receive a letter indicating if the documents provided constitute a valid Application for Development. This evaluation will contain a Jersey City Development Case Number and identify the Review Planner assigned to your application. Please address all future correspondence relating to this application to the Review Planner and include the Case Number, the property address, and the Block(s) and Lot(s). Further document submissions may be necessary in order to qualify as a valid Application for Development, and to thereafter be deemed “complete”.
3. Upon notification by the Review Planner that the application submittals are valid and ready to be sent to the Review Agents, the applicant will promptly submit one (1) additional set per Review Agent, of full size, signed and clearly sealed, stapled and **FOLDED** development plans bundled with an additional set of the full application documents and all supplemental information to the Review Planner for distribution to the Review Agents listed below. Each set of plans and documentation will be submitted in **individual, unsealed and unaddressed envelopes** of sufficient size to completely and neatly contain each package of documents. These envelopes will be delivered in a cardboard box(es) as needed. City Planning will then distribute the packages to the review agents through the city’s Messenger Service. The Messengers will be provided by City Planning with a Delivery Confirmation Signature Sheet for each particular application, which will be returned to City Planning by the Messenger Service upon completion of the delivery.
4. Each review agent may review and comment on the application and must respond within 14 days of receipt of plans and application documents delivered in Step 3 above. The review agents will be responsible for sending their individual comments to the following: 1.) the applicant; 2.) the applicant’s professionals, such as the applicant’s architects, engineers and attorneys; 3.) the Review Planner from the Division of City Planning assigned to the particular project.

5. The applicant may contact each Review Agent directly to address their individual comments. The applicant must contemporaneously provide the Review Planner with a copy of any and all correspondence sent to any Review Agent. The Contact Information for the Review Agents is provided in the attached application package.

6. If any revisions are made to the development plans submitted under Step 3. as a result of comments from any Review Agent, the applicant must submit one (1) set per Review Agent of such revised plans, **bearing a clearly visible revision date**, full size, signed and clearly sealed, stapled and **FOLDED**, and placed in appropriately sized boxes, to the Review Planner for further distribution to the Review Agents by the Division of City Planning via the Messenger Service. Each time a revised plan is submitted to the Division of City Planning, it shall be accompanied by a cover letter listing all the changes and which review agent requested them, with all changes graphically called out by the use of “clouding” around the changed areas. **Drawings without revision dates will NOT be accepted and will be returned at the applicant’s expense.**

7. The Review Planner will determine if the application is “complete” based upon the content of the Review Agents’ comments, including those of the Review Planner. Once deemed complete, the applicant will be assigned a hearing date and a submission deadline by the Division of City Planning, and will be notified of such in writing and/or email. Upon notification, the applicant shall promptly submit the required number of signed and clearly sealed, stapled and **FOLDED** development plans to the Review Planner. The required number of sets of development plans to be submitted is as follows: a minimum of: fourteen (14) sets for a case before the Planning Board, or eleven (11) sets for a case before the Zoning Board of Adjustment.

8. The plans submitted in Number 7 above shall be the same plans that all Review Agents and the Review Planner had reviewed in their last round of review and comment letters. They shall be submitted to the Division of City Planning at least 10 days prior to the scheduled hearing date for a timely distribution.

9. If the plans submitted in Number 8 above are not submitted on time, your case will be carried to the next regular meeting of the Board, within the limits of the Municipal Land Use Law.

NO applications will be heard by the Planning Board, Zoning Board, or Historic Preservation Commission unless fees have been paid in full.

Community Notice Requirements

As required by stipulations in certain Redevelopment Plans, special notice of applications made to the Division of City Planning **must** also be submitted to local community groups. Affidavit of mailing is required to be submitted to the Division of City Planning for the project file.

1. Morris Canal Redevelopment Area

- a. As per §VI of the Plan, notice to the community must be made not less than twenty-one (21) calendar days prior to the Planning Board hearing for which it scheduled. An affidavit showing proof of submission of site plan and application shall be submitted to the Division of City Planning not less than ten (10) calendar days prior to said hearing.
- b. There are three community groups which must be notified. They are as follows:
 - i. Morris Canal Redevelopment Area Coalition
c/o June Jones & Sr. Julia Scanlan
317-319 Pacific Ave.
Jersey City, NJ 07304
 - ii. Lafayette Neighborhood Action Coalition
c/o Dianna Guadagnino
287 Communipaw Ave.
Jersey City, NJ 07304
 - iii. Communipaw Avenue Block Association
c/o Ms. Rosalyn Browne
384 Communipaw Ave.
Jersey City, NJ 07304

2. Monticello Avenue Redevelopment Plan Area

- a. As per §IV.A of the Plan, notice to the community must be made not less than forty-five (45) calendar days prior to the Planning Board hearing for which it scheduled. An affidavit showing proof of submission of site plan and application shall be submitted to the Division of City Planning not less than twenty-one (21) calendar days prior to said hearing.
- b. There is one community group who must be notified:
 - i. Monticello Community Development Corporation (MCDC)
c/o Michelle Massey
37 Emory St.
Jersey City, NJ 07304

3. Canal Crossing Redevelopment Plan Area

- a. As per §V. H. of the Plan, the following agents of GRACO shall be notified of any development application, remediation application, development activity or remediation activity at least 14 days prior to site work commencement and application submission.
- b. There are four representatives who must be contacted:
 - i. Felicia Collis 189 Clerk Street felycollis@yahoo.com
 - ii. Joyce Willis 191 Randolph Ave j.willis222@verizon.net
 - iii. Teresa Patteron 185 Arlington Ave artsista@hotmail.com
 - iv. Ed Vergara 47 Gallinson Dr.
New Providence, NJ 07974 vergara_ed@yahoo.com

345-32 NON-REFUNDABLE APPLICATION FEES

- A. There shall be a non-refundable fee for applications to the Jersey City Planning Board, Zoning Board of Adjustment, and Historic Preservation Commission as provided by law and established herein. The fees provided for shall be non-refundable and are for purposes of offsetting the administrative and clerical costs of running these Boards.
- B. The City of Jersey City and its agencies, such as the Housing Authority, Parking Authority, and Board of Education, as well as applications for affordable housing developments and applications for Certificates of Appropriateness and Certificates of No Effect submitted by non-profit entities for property within a designated Historic District are exempt from the fees described herein.

11/10/2015

345-33 FEES

A. Applicable Fees

1. Every application for review or hearing before the Zoning Board of Adjustment, or the Planning Board shall be initially accompanied by a check for \$150, and every application to the Historic Preservation Commission shall be initially accompanied by a check for \$10. Balance due will be determined upon City Planning Staff's review in accordance with the amount(s) as provided in Fee Table I.
2. The applicant shall arrange to provide the Division of City Planning with two copies of the transcript for its files and shall pay the complete cost of the transcript of his or her application. Any balance due the transcription firm engaged by the Division for its services shall be payable immediately upon billing.
3. Copies of resolutions rendered by either the Board of Adjustment or the Planning Board shall be available to any person requesting them at their sole cost and expense. Any applicant shall receive a copy of the decision rendered at no additional cost. Minutes of either the Board of Adjustment or the Planning Board shall also be available on request to any person or applicant at their sole cost and expense. Amounts charged shall be as provided for in the City's ordinance regulating photocopy and documents fees.
4. Performance guarantees may be required by the Zoning Board of Adjustment or the Planning Board pursuant to N.J.S.A. 40:55D-53.
5. The Zoning Officer and the Division of Zoning Enforcement may establish reasonable fees to cover administrative costs for the issuance of permits, certificates or authorizations pursuant to N.J.S.A. 40:55D-18.

B. Schedule of Fees.

[Amended 5-28-2008 by Ord. No. 08-072; 11-10-2010 by Ord. No. 10-133; 2-23-2011 by Ord. No. 11-021; 9-27-2011 by Ord. No. 11-112; Amended 11-10-2015 by Ord. No. 15-147]

JERSEY CITY SEWERAGE AUTHORITY

SEWER CONNECTION PERMIT INFORMATION

In accordance with the proposed Jersey City Sewerage Authority sewer connection permit system, the following specifications should be adhered to for new sewer connections:

1. New Direct Connections to clay, PVC, PE, RCP or Ductile Iron sewers:
All house or building sewers must be connected to the Authority's sewer line, above horizontal center line of the pipe. This connection must be made by the use of a saddle which is securely fastened to the pipe.
2. New Direct Connection to Brick Sewers:
New building laterals must be connected to the brick sewer main so that the end of each lateral is flush with the inside wall of the brick main, an exterior clamp holds the lateral in place and non-shrink concrete grout is used to fill the void between the lateral and the brick pipe for the width of the brick pipe wall. Upon completion, the inside profile of the brick pipe wall must be smooth with no projectors or voids.
3. New Direct Connections to PCCP Sewers:
Will not be allowed without written consent from JCSA.
4. Jackhammers, sledgehammers, and other unsuitable machinery will not be used to make physical connections to sewer mains. Circular saws which are appropriately size or hand drills will be used to make the opening to receive the laterals. All debris will be removed and not allowed to fall into the pipe.
5. Upon completion of New Direct Connections, the Jersey City Sewerage Authority may televise the sewer lines for conformance to the site plan and these standards. The developer or owner will be notified to effectuate the necessary corrections, if needed. The Authority will request the Certificate of Occupancy (Co's) not be issued until corrections have been made to the satisfaction of the Authority.
6. House or building sewer connections which are six inches (6") or less in diameter and not permitted to connect into manholes, except in special cases where the manhole is redesigned and prior written approval is given by the Authority. New Connections which are eight inches (8") or greater in diameter should be connected to an existing or new manhole.
7. New connections to existing or proposed manholes where the new connection invert elevation is two feet (2') or greater above the existing sewer crown elevation must have an inside drop connection as per JCSA standard details. The reconstruction of channels and benches may be required.
8. All new connections to existing or new manholes must be constructed so that the new lateral crown elevation is equal to or greater than the crown elevation of the existing sewer. A drop connection may be required. The reconstruction of channels and benches may be required.

Contact Mark Lascavage at 432-1150 to obtain City standard and JCSA manhole, catch basin, and trench details.

The Office of the Mayor, the Office of the Construction Code Official and the Downtown Coalition of Neighborhood Associations have agreed on the following “construction rules of engagement” and request that you incorporate them into your planning process and those of your sub-contractors and suppliers. Failure to respect these agreed upon guidelines will impair relations with the surrounding community and may affect your permit applications and the schedule of your project.

1. **No monthly/extended permitting.** Except in certain carefully defined situations off-hours permits (weeknights or weekends) will only be granted on a week by week basis. Applications should be submitted at least 3 days prior to the date requested and, whenever possible, advance notice should be provided to community representatives to allow for notification of the affected residents.
2. **No weekend or night permitting within 600 feet of residential buildings.** Unless there is a true emergency “*in the interest of public health and safety*”. Permit applicants should adequately detail their reason and indicate why work cannot be performed during normal working hours.
3. **Full time, on-site seismic monitoring for any pile driving or similar heavy work within 250 feet of designated historic residential structures.** A qualified consultant should be retained to conduct such work, which should include a pre-construction survey to establish “base-line” conditions.
4. **Even during construction, “best available” efforts to minimize noise and preserve air quality and sanitation must be made.** State and City idling laws require trucks waiting more than *five minutes* to load or unload to stop their engines. All drivers working for you or your suppliers and contractors should be notified and reminded on a regular basis. County law requires that soil and debris piles be covered or otherwise managed to minimize dust in the area. Regular street-cleaning and wash-down should be funded by all active projects. Where pumps, compressors, generators or other continuous duty equipment are used, “best available” technology should be required to minimize adverse impacts, including use of electric driven equipment. This is required for off-hours work permits.
5. **Impact on resident zone parking should be minimized.** While safe truck routes and construction sites take priority over resident parking, every effort should be made to minimize the impact on zoned resident parking. Safety and efficient work practice for construction activities should take priority over resident parking however resident *parking* should take priority over construction worker *parking*. Due to the lack of space in the area construction workers should arrive by public transportation. This should be discussed with sub-contractors and addressed in their contracts, and is required for off-hours work permits.
6. **Truck routing should maximize safety and minimize impact on historic structures and residential community.** Pedestrian safety *must* take priority over construction schedules. **Safe clearly marked** pedestrian right-of-way must be maintained and pedestrians given the right of way at all crosswalks. Local speed limits and prohibition of trucks on residential streets should be addressed with delivery personnel and strictly enforced. For regular deliveries (ie cement, steel, etc) a route map should be provided to drivers. Truck routes should be designed such that, wherever possible, loaded trucks travel the *shortest* distance through or adjacent to historic districts. Construction deliveries and trash collection should only take place between 7 am and 6 pm weekdays. Traffic laws and routes should be addressed with drivers *before* they come to the job. Where necessary or appropriate, such as for a large number of deliveries, off-duty police should be hired to ensure safe traffic flow.
7. **Emergency Generator testing.** Inasmuch as the nature of this activity is “testing” and not “emergency” it should be performed only during normal working hours. Inconvenience or discomfort of business tenants does not justify granting of permits for weekend or evening testing. *This includes repair of such equipment during non-emergency conditions.*
