El Paso Water
Architect/Engineer
Statement of Pre-Qualifications

A/E firms that desire to work for El Paso Water (EPWater) must submit a Statement of Pre-qualification to AESelections@epwater.org. Firms are encouraged to update their Statement of Pre-qualifications when owners, project managers, or key employee change. For example, when a project manager resigns from a firm or when a firm hires a new project manager, the firm should promptly amend its Statement of Pre-qualifications so that EPWater knows of the change in the firm's capacity to perform work.
