IT’S THE LAW!  
BUSINESS RECYCLING

THESE ITEMS ARE RECYCLABLE AND MAY BE PLACED IN YOUR WHITE RECYCLE BIN OR RECYCLE CART.

PAPER
- Shredded-color white (Glossy Ok)
- Magazines
- Phone Books
- Softbound Books
- Hardbound Books [No Cover]
- Junk Mail
- Newspaper
- Envelopes (Windows Ok)
- File Folders [No Metal]
- Cardboard [Flattened]
- Paper Food Boxes [Cereal, Soda, Cracker, Pizza Boxes]
- Milk or Juice Cartons

METAL
- Aluminum Cans & Foil
- Tin Food Cans
- Empty Paint Cans
- Empty Aerosol Cans

GLASS
- Bottles and Jars

PLASTICS
- Most Plastics Labeled

THRU
[no styrofoam]

OTHER SERVICES

BULky IteMS

Items that cannot properly fit in your bin, such as a chair or desk, are considered bulky items and require a special pickup. Electronic waste (e-Waste) is anything with a circuit board or battery, such as computers, telephones and small printers. White goods (e.g. refrigerators, freezers) and electronic waste cannot be disposed of in your bin. CR&R will collect and properly recycle these items. For assistance, please call customer service at 909.370.3377.

Hazardous waste

Hazardous wastes are products that are flammable, corrosive, reactive or toxic. They are dangerous to the public and the environment. It is illegal to dispose of hazardous wastes in your CR&R containers. Hazardous wastes must be disposed of properly. For further information about the disposal of hazardous waste, please visit http://www.sbcotwaste.org, 1.800.01/Call (645.9228).

WASTE BIN

1.5 YARD
29.5’h x 72”w x 29.5”d
3 YARD
41.5’h x 72”w x 41.5”d
6 YARD
47”h x 80”w x 66”d

RECYCLE BIN

3 YARD
41.5’h x 72”w x 41.5”d

*CONTAINERS MAY VARY IN SIZE**
RECYCLING LEGISLATION

**Assembly Bill 939 (AB 939)**
Required jurisdictions to meet diversion goals of 25% by 1995 and 30% by the year 2000 resulting in the implementation of:
- Drop-off recycling programs
- Curbside recycling
- Commercial recycling
- Construction and demolition recycling

**Assembly Bill 341 (AB 341)**
Requires all jurisdictions to meet the diversion goal of 70% by the year 2020 resulting in businesses who generate 4 or more cubic yards of waste to either:
- Participate in a recycling program with the local waste hauler.
- Donate, sell and/or sell-haul materials to a recycling facility.

Information about California’s business recycling requirements is available from the California Department of Resources Recycling and Recovery (CalRecycle) at http://www.calrecycle.ca.gov/recycle/commercial/.

**Assembly Bill 1826 (AB 1826)**
Requires businesses to separate their food scraps and green waste for recycling. AB 1826 builds on the success of the mandated commercial recycling program established by AB 341. Please see the timeline below for implementation requirements:
- 2016 – All businesses with 8 or more yards of organic waste per week
- 2017 – All businesses with 4 or more yards of organic waste per week
- 2019 – All businesses with 4 or more yards of solid waste per week

Information about organic waste recycling requirements is available from the California Department of Resources Recycling and Recovery (CalRecycle) at http://www.calrecycle.ca.gov/recycle/commercial/organic/.

FOOD SCRAP RECYCLING

**COMING SOON**
Refusing organic materials to the soil drastically reduces the environmental impacts of landfills, reduces greenhouse gases, creates jobs, and helps sustain California’s agricultural industry.

CR&R has developed a Food Scrap Recycling collection program to service businesses. Items that will be acceptable in the program include food preparation scraps and table scraps, food soiled paper, plants, flowers, coffee grounds, and much more.

To obtain additional information, call CR&R Environmental Services and ask to speak with a Sustainability Specialist for your area.

RECYCLE PROGRAMS

**COMMINGLED RECYCLING**
This program recycles materials such as cardboard, mixed paper, plastic, aluminum and glass bottles. They may be mixed together and placed in a recycling bin.

**SOURCE SEPARATED RECYCLING**
Your business may generate a large amount of one type of recyclable material such as cardboard. CR&R can help you determine the best container for your needs based on the quantity and type of material.

**CONSTRUCTION AND DEMOLITION**
With construction and demolition (C&D) debris making up a large percentage of all material entering California landfills, CR&R can help you divert as much as possible through a combination of source separation and mixed processing. Prior to starting your project, contact CR&R to find out what options will work best for your site. Planning ahead will assist you in diverting as much material as possible, as cost effectively as possible.

**LEED PROGRAM**
LEED, or Leadership in Energy and Environmental Design, is an internationally recognized green building certification system. CR&R is prepared to help you meet your construction based LEED goals. We are flexible enough to work with you on all building types—commercial as well as residential.

**Did you know...**
California produces nearly half of the nation’s fruits and vegetables. Yet 1 in 7 Californians currently struggle with food insecurity. “Food Insecurity” is the occasional or constant lack of access to the food one needs for a healthy, active life. CR&R is supporting efforts to keep edible food out of the recycle stream.

**Have excess food to donate?**
If you are interested in donating prepared or nonperishable food, contact one of CR&R’s Food Rescue Partners: Community Action Partnership of San Bernardino County at www.capabc.org
