

CSAB Decision Making Guide - Request for Increased Investment

During weekly review meetings, CSAB members will use the following decision guide as a starting point for discussion of **programs requesting investment increases**. The discussion and consensus for yes/no/maybe groupings will guide considerations made at the final investment decision meeting(s) and will begin the establishment of a funding/no funding rationale.

Yes to all boxes	=	Consider for increase even at the expense of other programs
Maybe to any box	=	Consider for an increase if dollars are available
No to any box	=	Not eligible for consideration for an increase
