Maplewood Golf Course reopens on May 5

Following the governor’s lifting of some restrictions on outdoor recreational activities, we will open the Maplewood Golf Course for play starting Tuesday, May 5.

To keep everyone safe and help ensure we can continue on the progress we have made in curbing the spread of the COVID-19 virus, we will be implementing and following established safety guidelines. These include, but are not limited to:

Renton: Downtown
• Play by twosomes only
• One rider per golf cart
• No riding on the grass
• Observe social distancing guidelines

Renton: General
• Do not come to the golf course if you are sick
• No unattended small business owner who needs assistance, please contact Renton Community & Economic Development Staff.

Community & Economic Development (CED) staff are proactively reaching out to Renton businesses providing both promotional and resource information. If you or a Renton small business owner needs assistance, please contact them through their Small Business hotline at (206) 503-1742 or by emailing Renton’s dedicated staff members to help. They have compiled a list of available resources for both businesses and residents seeking employment.

The Renton Business Page and Renton Rising group on Facebook and the Renton Business Minute videos are great ways to share ideas, support each other and promote your business. CED has three dedicated staff members to help. They compile a list of available resources for both businesses and residents seeking employment.

Renton Business will receive this postcard this week.

An additional development for businesses is the creation of Startups 425. Help is available in multiple languages. Funding for these plans is limited and demand is high, so please do not wait to apply.

I also can’t emphasize enough that restaurants throughout Renton are open for your to-go or delivery order. CED keeps a list with new additions every day.

Boeing looks to resume 737 MAX production

Earlier today the Boeing Company announced they expect to reduce their workforce by roughly 10 percent through a combination of voluntary layoffs, natural turnover and involuntary layoffs. Boeing will also seek reimbursement dollars and I’ll be able to share more when it’s finalized. Boeing looks to resume 737 MAX production during 2021 followed by gradual increases in response to market demand.

The return to production in Renton later this year will be very good news because of the positive impact it will have on our economy. I will continue to work with our state and federal leaders to identify resources that can help our businesses impacted by COVID-19. As well as with Boeing, local businesses and residents established to a path to recovery.

Renton to receive $3.14 million in CARES funding

Yesterday I shared the good news that Renton would possibly receive funds from the federal CARES Act. I’ve received more specific information and our share will be $3.14 million. This money will be used to cover necessary expenditures related to our response to the COVID-19 pandemic. We’ve just started looking at the available revenue dollars and it’ll be able to share more when it’s finalized.

Renton: Downtown
• Play by twosomes only
• One rider per golf cart
• No riding on the grass
• Observe social distancing guidelines

Renton: General
• Do not come to the golf course if you are sick
• No unattended
• Observe social distancing guidelines

Staff are also helping businesses navigate the many assistance programs available from the city, state, federal and private entities through the COVID-19 business recovery efforts.

For assistance in multiple languages, please visit the following resources:

• Renton: Downtown
• Renton: General
• Renton Business Minute

For more information regarding COVID-19 continually being updated, I’ve established a specific information group with Startup 425. Help is available in multiple languages. For additional translation services contact communications@rentonwa.gov
