Project Coordination – Bart Spencer

- Core Planning Team
- Steering Committee
 - Organization and purpose
 - Expectations
 - Selection of a chair and vice chair
 - Quorum
 - Meetings and meeting times (open meetings for CRS compliance)
 - Ground rules (need acceptance)
- Mission Statement, Goals, Objectives
 - Previous Guiding Principal*
 - Through community partnerships, establish a plan to reduce vulnerability to hazards in order to protect the health, safety, welfare, and economy of the City.
 - Previous Goals*
 - Protect lives and reduce injury.
 - Promote hazard mitigation as an integrated policy.
 - Protect the continuity of local government to ensure no significant disruption of services during or due to a disaster.
 - Improve community emergency management preparedness, collaboration and outreach.

- Minimize or reduce damage to property, including critical facilities.
- Develop and implement mitigation strategies that optimize public funds in an efficient and cost effective way.
- Monitor and support the natural environment’s capacity to deal with the impacts of natural hazards, taking into account the potential impacts of global climate change.

Previous Objectives

- Consider the impacts of hazards on future land uses in the City of Roseville by coordinating with other planning mechanisms such as the General Plan and land-use code development.
- Protect and sustain reliable local emergency operations and communication facilities during and after disasters.
- Develop new or enhance existing early warning response systems and plans.
- Seek to enhance emergency response capabilities through improvements to infrastructure and City programs.
- Enhance the understanding of all present and future hazards that impact the City of Roseville and the risk they pose.
- Seek mitigation projects that provide the highest degree of hazard protection at the least cost.
- Seek to update information on natural, environmental, and human-caused hazards, vulnerabilities, and mitigation measures by coordinating planning efforts and creating partnerships with appropriate local, private, county, state, and federal agencies.
- Seek to implement codes, standards, and policies that will protect life and property, including natural habitat, from the impacts of hazards within the City of Roseville.
- Educate the public on preparedness for and mitigation of potential impacts of hazards on the City of Roseville.
- Support efforts to retrofit, purchase, or relocate structures in high hazard areas, including those known to be repetitively damaged.
