Project Coordination – Bart Spencer

- Acceptance of Steering Committee #1 Summary
- Ground rules – need acceptance
- Guiding Principle, Goals, Objectives – need acceptance
 - 2023 Guiding Principle
 - Through community partnerships, establish a plan to reduce the vulnerability to hazards in order to protect the health, safety, welfare, environment and economy of the City for all Roseville residents, businesses, and visitors.
 - 2023 Goals
 - Goal #1: Protect lives and reduce injury.
 - Goal #2: Promote hazard mitigation as an integrated policy.
 - Goal #3: Protect the continuity of local government to ensure no significant disruption of services during or due to a disaster.
 - Goal #4: Maintain a safe community using emergency management principles through collaboration and outreach.
 - Goal #5: Minimize or reduce damage to property, including critical facilities.
 - Goal #6: Develop and implement mitigation strategies that optimize funding in an efficient and cost-effective way to maintain a fiscally sound city.
 - Goal #7: Monitor and support the natural environment’s capacity to deal with the impacts of natural hazards, taking into account the potential impacts of global climate change.
 - Goal #8: Strengthen inclusiveness, equality and justice efforts for all in partnership by building a resilient community.
 - 2023 Objectives
 - Objective #1: Consider the impacts of hazards on future land uses in the City of Roseville by coordinating with other planning mechanisms such as the General Plan and land-use code development.

- Objective #2: Protect and sustain reliable local emergency operations and communication facilities during and after disasters.
- Objective #3: Develop new or enhance existing early warning response systems and plans.
- Objective #4: Seek to enhance emergency response capabilities through improvements to infrastructure and City programs.
- Objective #5: Enhance the understanding of all present and future hazards that impact the City of Roseville and the risk they pose.
- Objective #6: Seek mitigation projects that provide the highest degree of hazard protection at the least cost.
- Objective #7: Seek to update information on natural, environmental, and human-caused hazards, vulnerabilities, and mitigation measures by coordinating planning efforts and creating partnerships with appropriate local, private, county, state, and federal agencies.
- Objective #8: Seek to implement codes, standards, and policies that will protect life and property, including natural habitat, from the impacts of hazards within the City of Roseville.
- Objective #9: Educate the whole community on preparedness for and mitigation of potential impacts of hazards on the City of Roseville.
- Objective #10: Support efforts to retrofit, purchase, or relocate structures in high hazard areas, including those known to be repeatedly damaged.
