## Reading the Schedule & Maps

To begin, look at the schedules and find the routes that serve your travel needs. Morning and afternoon routes are listed in numerical order. Take a few moments to look over the map of downtown Sacramento on page 8 of this guide, the route pages, and the legend information below.

- **Bus Stop** – The bus stops only if there is a passenger boarding or exiting the bus at this stop.
- Ⓜ **Timed Stop** – The bus leaves at a scheduled time as shown on the route schedule.

For assistance and information call (916) or (530) 745-7560, or visit our office at 316 Vernon Street, Suite 150 in Roseville.

## Boarding the Bus

All bus stops are marked with a bus stop sign. As the bus approaches, make sure the driver can see you. Check the digital display board on the front of the bus to verify you're catching the correct route.

Be prepared to board by standing away from the curb until the bus has made a complete stop. Before boarding, allow passengers to exit and permit the driver to assist wheelchair passengers.

Pay your fare. If you plan on riding the bus frequently, it may be more convenient and cost-effective for you to purchase multi-ride passes, or use the Connect Card. When paying a discounted fare, the acceptable form of identification must be shown to the driver (see page 2).

When the bus is moving, stay behind the standing line and out of the stairwells. If the bus is crowded, please move to the rear when you board. If standing, please hold onto the stanchions or overhead straps while the bus is moving.

## Exiting the Bus

When the bus is about one block from your stop, use the stop cord located by the window to signal the driver. After the bus has come to a stop, you may exit.

## Accessible Service

The seats closest to the front of the bus and near the door are reserved for elderly and disabled passengers.

Roseville Transit can transport passengers with mobility devices provided they can be loaded and secured safely. If we are unable to load and safely secure a passenger's mobility device, the passenger may be denied service until they are able to substitute a mobility device that we are able to load and secure safely. Call (916) 745-7560 for a mobility consultation, or for more information.

All buses are equipped with lifts or ramps, and the ability to "kneel" by lowering the front steps, making boarding easier. All buses are also equipped with securement areas. Assistance with passenger lifts, mobility device securement, and fare payment is available when necessary or upon request.

## Carry-On Baggage

Shopping bags, luggage, and other carry-ons are limited to only those items passengers can safely carry on the bus in one boarding and without blocking the aisle. Passengers must have control over carry-on items at all times.

## Lost and Found

Roseville Transit is not responsible for items left on a bus or at a bus stop. To check to see if your item has been found, call (916) 745-7560.

## Comments and Suggestions

Let us know how we are doing. If you have a comment or suggestion about Roseville Transit, please contact the Alternative Transportation office.

## Transportation Commission Meetings

## Bike Racks

All buses are equipped with two front-mounted bike racks, available on a first-come, first-served basis.

When the bicycle rack is occupied, a folding bicycle may be brought on board provided: it is already folded and stored in a carrier bag when boarding, and it remains in your control and does not block the aisle at any time. When capacity is an issue, folding bicycles must be stored under an aisle-facing seat (maximum 12" height when folded.)

## Electronic Bike Lockers

Bike lockers make it easy to cycle for work, school or errands, and are great for use in combination with riding transit or carpooling. The City of Roseville offers on-demand secure eLockers for use 24 hours a day, on a first-come, first-served basis at these Park & Ride lots.
