

Silver Lake Water & Sewer District

Exhibit 14

August 15, 2018

Christi Amrine, Senior Planner
City of Mill Creek
15720 Main Street
Mill Creek, WA 98012

Subject: Request for Letter of Water and Sewer Availability to TPN 280531-001-004-00 for Doggie Day Care

Dear Christi,

The referenced proposed project agent for the developer has requested the Silver Lake Water and Sewer District (SLWSD) write a letter describing the availability of water and sewer service to their project site. SLWSD has water and sewer facilities adjacent to the proposed project site. Construction and or easement requirements for mainline extension or service connection installations will be evaluated when the request for service is made to the District.

Our facilities have the capacity to provide water and sewer service. Connections would be conditioned on full compliance with all District Standards, Specifications and Requirements.

Sincerely,

A handwritten signature in blue ink that reads "Richard Q. Gilmore". The signature is fluid and cursive, with a long horizontal line extending to the right.

Richard Q. Gilmore, P.E.,
District Engineer
425-337-3647

Electronically transmitted, no hard copy mailed.
