**North Carolinas Flood Information Center:** <https://flood.nc.gov/ncflood/>

**Southeast Stormwater Association (SESWA)** – An association of stormwater professionals from local and state governments and consultants. This stormwater association has the same geographical footprint (10 states) as the Federal Government’s, EPA-Region 4. This group observes legislative activity at the Federal level, advises municipalities accordingly, and communicates more on a national level than other associations. <http://www.seswa.org/>

**Stormwater Association of North Carolina (SWANC)** – An association whose mission is to foster professional stormwater management in North Carolina. <http://swanc.org/>

**The Regional Stormwater Partnership of the Carolinas (RSPC)** –Developed as a forum for stormwater professionals to work collaboratively on local stormwater issues. Comprised of professionals from eighteen municipality partners. The RSPC provides an opportunity to leverage limited resources to fulfill common needs of the partners. As an example, the RSPC has conducted public education and outreach efforts about stormwater issues, which is one of the requirements in all of the partners’ Clean Water Act stormwater permits. Numerous training and networking opportunities have also been provided for its members. <https://www.regionalstormwater.org/>
