Family and Community COVID-19 Update
November 30, 2022

We are pleased to share that there are no outbreaks at the hospital at this time.

Visits have resumed as per previous practice on all units. All visits must be scheduled at least 72 hours in advance. Visitors to the Horizon Program require screening at the door with negative rapid antigen tests - Horizon patients may have up to 4 visitors indoors and as many as can be accommodated outside given standard visiting practices.

All visitors must attest to COVID-related screening questions posted at all hospital entrances and wear appropriate personal protective equipment regardless of whether the visit takes place indoors or out.

Eating and drinking by both patients and visitors is now allowed during visits. Masks must be put back on after the food is consumed. Both homemade and commercially prepared food is acceptable. Leftovers must be taken with the visitor when they leave. Commercially produced and prepackaged/sealed foods that do not require refrigeration may be brought in for individual patient consumption after the visit in consultation with program staff.

We urge you to get vaccinated for COVID, including boosters if eligible, and for the flu as the fall flu season is upon us, wear a mask, physical distance and continue to be cautious about gathering in large groups. We can help each other and we can help the health care system by doing everything we can to stay healthy and help our loved ones stay healthy.

Resources for Patients and Families
Supports for patients and families are available from our Spiritual Care Team, the Patient/Client and Family Council and the Patient Relations Office. More information can be found at www.waypointcentre.ca/patients___families
