

THE CITY OF CASPER WANTS TO REMINDE YOU TO:

Remove or trim any overgrown tree limbs, shrubs, bushes, or other vegetation that obstructs visibility for traffic or pedestrians, and/or hinders access to the alleys. In order to be in compliance with City Ordinances, ask yourself these questions:

- ✓ Can pedestrians walk safely down the sidewalks?
- ✓ Do vehicles have a clear view of street signs, traffic signs, stop signs and oncoming traffic at intersections?
- ✓ Can City service vehicles and other traffic navigate safely down the alleys?
- ✓ Can your dumpster be emptied without interference from overhanging branches?

If you answered “no” to any of these questions, then it is time to take care of the problem. City ordinances require that:

- Trees, bushes, and shrubs that overhang a street, alley, or sidewalk need to be cut to at least 15 feet above the surface of the street or alley, and 8 feet above the sidewalk.
- Trees, bushes, shrubs, and other growth need to be cut back to the property line along the street, alley or sidewalk to allow clear access for either vehicle or pedestrian traffic.

Tree limbs and clippings can be taken to the compost yard at the City of Casper Solid Waste Facility for no charge. **Note: If you want the City to remove the items as garbage, the limbs and clippings need to be securely bundled in lengths not to exceed 5 feet, must weigh less than 50 pounds, and must be placed by the dumpster on your extra trash day.**

For additional information, contact the Code Enforcement Department for the City of Casper at 235-8254. Information on extra trash days and the proper disposal of limbs and shrubbery can be obtained by contacting the Solid Waste Facility at 235-8246. Information can also be obtained via the web at www.casperwy.gov.

Let's all pitch in to make Casper a safe place to live, work and play!
