

## *Life Jacket Program*

Casper Fire-EMS's Life Jacket Program was formalized in 2001. Every fire station has a stock of life jacket's available to the community to use free of charge. Every fire station also has a drop box where citizens can return the jackets after use. The goal of the program is to increase the safety of our citizens by making life jackets available and making it convenient for the citizens of Casper.

Please contact the Fire Department at 307-235-8222 for more information.
